STUDY ABROAD AT A TOP UNIVERSITY
YOUR POCKET GUIDE
WHY SHOULD I STUDY WITH KAPLAN?

Do you want to get a degree from a leading university abroad? With Kaplan, you can! Our pathway courses can help you progress to one of 20 universities in the UK, USA or Australia. With a degree from one of our university partners, you could achieve anything.

Why a pathway course could be right for you
A pathway course can help you study at a university abroad, even if you don’t quite meet the entry requirements. You can improve your current grades and qualifications to the level needed for your chosen degree. This opens up highly ranked universities that might not be accessible if you applied straight to a degree.

A pathway course will help you develop in 3 key areas:

ACADEMIC SKILLS
SUBJECT KNOWLEDGE
ENGLISH LANGUAGE ABILITY

“Studying at Kaplan allowed me to become familiar with a new education system, and to improve my skills to meet the requirements for university. The staff and teachers are so helpful, and I would definitely recommend Kaplan to others!”
