Equipment & materials

- Banding wheel
- Pallet
- ¾ Mop brush
SG1400
- Espresso Pottery glaze
SPSG953
- Dessert Storm Under-glaze
SP421
- Gold crystals
SPCR 110
- Clear crystals
SPCR120
- Reactive Green crystals
SPCR090

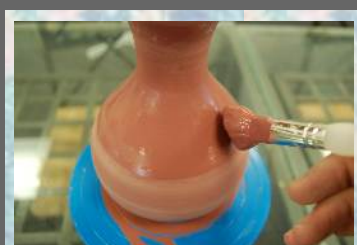

CRYSTAL GLAZE VASE

1 Spill glaze your vase with Espresso Pottery Glaze.

2 Center your vase on a banding wheel and apply your first coat. You may want to add a little water to the glaze if it is too thick.

3 Once your first coat has dried apply a second coat and allow to dry.

4 Pour some Espresso onto your pallet.

5 Add some Gold, Clear and Reactive Green crystals, about half a teaspoon of each is enough for this size vase.

6 Mix the crystals into the glaze.

7 Apply this mix to your vase spreading the crystals evenly over the surface.

8 Drizzle Spectrum Dessert Storm under-glaze around the rim.

9 Allow the under-glaze to run down the sides of the vase. Once dry still and fire to cone 06.

10 This is my first piece using this combination of espresso and crystals.

11 Opening the kiln to see something like this is what it's all about, it has a real wow factor!
