GLOSS ENAMELS

Embellish or personalize glass, ceramic and wood ornaments. Painted glazed ware or glass may be baked for increased durability. They go equally well on porous surfaces like bisque and no sealer is required. Gloss enamels are Non-toxic with a Soap and water clean-up when wet.

The jug pictured above had been glazed with a design that I was really unhappy with, I painted over the glaze with the gloss enamels and saved it from the bin! The treat bowl was also painted on glaze and the Frankenstein box featured in this quick tutorial is painted directly onto bisque.

1. Apply two coats of Citron green to the outside of the box and two coats of Black to the lid. Apply two coats of white to the inside.

2. Draw on your face and hair with a pencil.

3. Paint the hair area with Black along with the eyebrows and mouth.

4. Apply two coats of White to the eyes.

5. Apply one coat of Black to the pupils and paint in the nose.

6. Outline the eyes in black

7. Add a couple of highlights to the eyes with the handle end of a brush.

8. Paint a message on the lid if you wish and allow to dry.
