

Good morning Michael,

After much looking around we have managed to book St Andrew's Hall for next Monday 11th – which has rather crept up on me. Would it be possible for you to let members of OCRA know and put a message on your website? I suggest the following:

ZVI obtained planning permission for the change of use of Elizabeth House to a managed hall of residence for 261 students in November 2012. The building is to be occupied by students attending courses run by Cambridge Education Group (CEG). As well as this additional student residential accommodation, CEG is in need of accommodation for teaching purposes. Savills has been looking for premises in Cambridge for CEG for over two years, but the lack of availability of premises in Cambridge has meant that consideration has turned to examining the potential of the grounds of Elizabeth House to accommodate some teaching space. ZVI and CEG are in the initial stages of looking at the options for accommodating teaching space along side the residential accommodation at Elizabeth House and would like to hear residents' views at this early stage in the process. As such ZVI is hold a drop in session for local residents at St Andrew's Church Hall on Monday 11th March from 6pm until 9pm.

Regards

Colin
