

NEAR DEATH EXPERIENCES (Ref. 099)

Narrated by the “father of near death experience” Raymond Moody, this documentary was shot around the world at sacred sites - among them Ephyra in Greece, mentioned by Homer as the Oracle of the Dead. After studying the rituals performed there and throughout the ages, Moody replicated the conditions in his own studio. People who have had near death experiences or those who are terminally ill tell in intimate detail what they have experienced in death and most confess that “it is the most peaceful they have ever felt.”

Philosopher, psychiatrist and best-selling author Moody is a pioneer in the study of human mortality. He coined the phrase “near death experience” and “light at the end of the tunnel”. In his best-selling book *Life after Life*, Dr Moody was the first to chronicle the experience of more than three thousand individuals who had “died” and were revived.
