A wee article had been sent to us to share. It seems to have originated in South Africa, and is an analogy of how, with God's help and grace, if we allow it, we can be shaped into useful people.

It is called the "Parable of the Pencil".

The inventor of the pencil said this about his finished product:

"I want you to remember four things:

1. Your goodness or true worth is within you.
  2. You'll need to be sharpened as you go through life.
  3. You'll be in someone else's hand, otherwise you'll make an awful mess.
  4. You'll be expected to leave a mark".
