

24th May 2017

Dear Prudhoe Town Council

After our Prudhoe Pathforce meeting where we discussed the Prudhoe Town Trail and the disgraceful damage done to the Plinth with details of the 'Kepwell' as well as the general state of the well itself.

We were wondering if there was any way that it could be refurbished back to its original state. I have walked right around the trail and it seems to be the only damaged one. I do have the leaflet of the trail and it was financed initially through Prudhoe Community Partnership alongside of the Town Council.

Could you please raise this at the next meeting with a view to renovation and also doing something more permanent with the well to make it more of an attraction?

Thank you in anticipation,

Brian Hudspith
