To whom it may concern

When this was originally brought up by the town council for implementation, it proved to be quite an emotive topic on social media, however, people believed the town council had the authority to do this.

As it now has been minuted that this is not the case, nor is it something supported under N.C.C. policy I would like to formally request that the council look at rewording the misleading signage to allow dogs on leads in that area.
