

## OVERVIEW

The response from Northumberland County Council (NCC) Neighbourhood Services concerns whether these seats were part of the transfer of responsibility of Street Furniture (refreshed in 2014) or I wonder whether they were deemed separate as installed as part of a programme of works by the Front Street Redevelopment Group, I think this is what the Town Council has always assumed.

Regardless of the outcome the seats require repair and maintenance and NCC Neighbourhood Services would be grateful if they were included in the tender going out from the Town Council very soon.

The Town Council is asked to consider a) repairing the seats and b) including the seats in the tender for Maintenance of Town Seats, going out soon.
