Request for voluntary/community group photos for inclusion in Scottish Services Directory. NHS Inform are in the process of developing the Scottish Services Directory (SSD) that ties into their healthy living pages on their advice website <https://www.nhsinform.scot/healthy-living>.

The SSD once completed will enable users to search for all relevant local services, groups and organisations where they can get support etc to live healthier. The main project team have asked for photos from voluntary and community groups as detailed below – *We are compiling a mosaic video of photos demonstrating how each of our partners work with each other and the community to improve health and wellbeing. The video will show all of our partners and give some information about what SSD is. What we need now is lots and LOTS of photos of your area doing their thing. Photos can be from workshops, meeting with services, services themselves anything to add to the partnership story.*

If you have any photos of your group that you would like to be included in the video, please contact Gwen directly gwen.robertson@nhs.net. You are asked to submit these as soon as possible as work on the video is already in progress!
