

Emergency Plan

Fire

To reduce the chances of a fire spreading, all doors should be kept closed while sleeping.

There is a designated Fire Door between the lounge and hall. This should be kept closed overnight.

There are three external doors for escape – ensure the passage to them is kept clear.

The hall area should be kept clear.

In the event of fire

Leave by the nearest door and make your way to the driveway. Phone 999 to raise the alarm – the property address is Wester Whinhill, Dornoch IV25 3RW. Alert the owners 01862 810533 or 07767 837740

Smoke Alarms

The smoke alarms are interlinked so a warning sound will be clearly heard throughout the building. The alarms are tested regularly.

Kitchen Fire

There is a Fire Blanket and extinguisher in the kitchen. If a small fire breaks out (e.g. pan on fire) and it is safe to do so, please extinguish with the fire blanket. Similarly use the fire extinguisher if it is safe to do so.

Emergency Lighting

If the power fails emergency lighting in the hall will guide you to an exit.
