

**Two short pieces of correspondence looking for updates. Both have received a response from me and have already been brought to the attention of DACC and the Highland Council**

***Request speed restrictions signs 20mph at entrance to Mackay road as your turn into deans park from Sutherland road? Similar such signs are in situ at entrance to Allan Gardens at Springfield estate.***

Lou,

Wondered if there had been any discussion re the 20 mph signs for our estate?

I know all the personnel changes on the council may have impacted but believe with increased site traffic now as well as residents it needs to slow down before we have an unfortunate accident.

Best regards

Ian

**A949 Evelix Road - Blind summit - Risks to cyclists**

Good evening Ms Rollason,

Thank you for your email of 6 September 2020.

I have been looking at the Council's minutes to see how matters have been developing. I didn't notice anything recorded for your meeting of 16 September but I did see a very brief mention at Item 16 in the October minutes.

Could you please expand upon what is in the minutes so that I can understand what has happened?

Did the Roads Authority clarify whether they accept that there is a genuine blind summit at this location or do they think it is merely an optical illusion?

In September 2019 I was pleased to learn that the Council had taken this problem 'on board'. Is this something you will pursue or do you consider the matter closed?

Kind regards,  
Patrick Whelton
