

WESTMORLAND GEOLOGICAL SOCIETY

E-MAIL NEWSLETTER No. 57 - May 2021

Lectures

April 21st –Prof Richard Worden's lecture on 'The geology of carbon capture and storage' can now be viewed on YouTube by clicking on:-

https://www.youtube.com/watch?v=-Of_GwQki0

This was the last lecture of our winter programme

Geologists' Association Student Symposium (GASS)

The Society has booked a group enrolment for this event which takes place on 20th and 21st May. It is not aimed at students; it is an opportunity for students to present their work to the world at large. A flyer and programme for the event are attached; details of logging in arrangements and any other relevant information will be circulated when these are received.

May Field Trip

The first field trip of 2021 is to Coniston Copper Mines on Sunday 23rd May. The trip includes a walk around the site in the morning and a visit to the mine after lunch. Final details are still being finalised and will be circulated later. Numbers will be limited.

Down to Earth

The May edition of Down to Earth Extra accompanies this Newsletter.

Geology from your Sofa

More material has been added to the GA website and can be found at:-

Geology for Walkers

This is the title of a recently published book by Stephen Peacock, a professional geologist and keen walker. It includes a section on geological concepts, and another on the geological history of Britain before going on to describe the geology to be found on a number of long distance footpaths, including the Coast to Coast Way. It can be found on Amazon for about £12.
