

Reflowering Redesdale Project

6b

**Project Summary**

To increase the floral diversity of hay meadows and the network for pollinators in Redesdale focusing on meadows, greenspace within village hubs, road verges and lay-bys.

The project will also help to provide a source of appropriate plants and training and support to farmers around the traditional management of hay meadows.

**Outputs & Activities 2018-19**

- Working with farmers to confirm sites for the programme (min 40 ha)
- Training programmes for volunteers
- Hard flail sites that will be scythed, work with volunteers to plant seeds and plug plants at Corsenside, Otterburn, Byrness.
- Till and seed Rochester Roundhouse and plant plug plants
- Begin programme of verge planting on 8 sites
