Dear Thomas

I am writing on behalf of the Directors of Groam House Museum to thank you for your exciting display, contribution, workshops and all your valued time and assistance given during our recent Summer Art Exhibition at the Stables, Rosehaugh.

You will be aware that our visitors from a variety of countries and varying age groups were very appreciative and interested in your work which certainly added an additional element to our George Bain artwork on display. Our local artists work illustrated a great deal of talent and variety and you must take credit for playing a strong role in this.

Your demonstrations on parchment making and Celtic manuscript illuminating, with our groups of visitors were very well received and it was a pleasure to witness how involved your audience became with you and how well you interacted with the large mixed groups in attendance.

However, it was your work with the school groups which was most remarkable. There were some large classes in attendance and

you managed to hold their interest and attention throughout the demonstration, question time and drawing session which is no mean feat. The children were quite inspired by you and produced some great work as a result. The teachers are already asking for more !

Can I also thank you for your practical assistance with setting up and dismantling the exhibition. This was much appreciated by us all and certainly helped me tremendously.

This exhibition was a taster session for Groam House Museum and following on from its success, we will be commissioning a feasibility study to progress our project to the next stage. I would like to think that we will be working together again and you will be able to benefit

from our facilities should our plans for our Celtic Design Centre come to fruition.

With grateful thanks

Molly
