Gil Anderson has been playing guitar since about 1961 when he "borrowed" his brother's.

Introduced to 'finger-style' in 1967 at Rhodes University in South Africa he went on to develop the style he plays today. It is based on the American 'claw-hammer' banjo and is dominated by an 'alternating double-thumbng' rhythm with a light sprinkling of blues. He is, essentially, a guitarist who sings.
