

Health Day 2014

The school have organised a health day to help raise money for sport relief. We started the day off with a sponsored fun run, then we went into the venue to watch videos to do with sport relief and Davina McCall's 7 day challenge that she did for sport relief and then we went into our activities. These activities involved volleyball, baking, wii dance off, rock group, chai tea making, board games and photography as you can see from the pictures of the activities below.
