

Faerie Wings

© M.E.Shaw 2015

A simple pattern for Faerie Wings in two sizes

The smaller pair are 5.5cm x 5.8cm approx

The larger pair are 6.8cm x 7.7cm approx

Change the threads, braid and fillings to suit yourself!

I worked the smaller pair in one strand of DMC Light Effects Precious Metals stranded embroidery thread. For the fillings Madeira blending thread.(metallic) was used,

Bobbins: I used 4 pairs for the braid plus 6 pairs for the plaited fillings. Two pairs from the filling were carried across from an upper wing to the lower wing with a plait, the others pairs sewn in and out as needed.

I worked the lower wings differently from the working diagram by putting in a half stitch filling. This only required 5 pairs.

The wings were just stitched into place onto her dress.

For the larger Wings 5 pairs of bobbins for the braid plus 6 for the plaited fillings.
