\* Please note availability of the Cross Country facility is weather dependent and access to the course will only be permitted when it has been deemed fit for use by the Management Board.

### **Some Guidelines**

- There must always be an adult on the ground when using the XC facility.
- For other facilities, if there is only one rider present, there must be an adult on the ground.
- Jumpkins, poles etc on top of the kickboards are included in arena hire. Equipment stored elsewhere is not to be used. Please report any damage on the payment slip.
- It is the responsibility of every user to leave the facility clean and tidy after use.
- Do NOT use haynets indoors and be careful to remove all droppings and deposit in the trailer outside before you finish your session. Please try not to throw out our precious surface!
- Please fill out a remittance advice after every session, place it in a provided pouch along with your remittance and post it in the safe.
- Electricity is our biggest cost. Please ensure all lights are switched off when you leave.
