

Hoolifan 2

Hoolifan 2 (60's & 70's trip) is the second book of the life story of retired football 'lad' Martin King. After his remarkable first book Hoolifan this is the story of his teenage experiences with the Skinhead's era, Punk/Rock music, terrace fashion and first steps with his beloved football club Chelsea. The book includes tales of music, youth movements, terrace culture, cults of the era, football and beer....Found it very hard to put down. A damn good read.
