APRIL 2021

### ST PIRAN'S DAY

On the 5<sup>th</sup> March, Cornwall celebrated St Piran's Day. This year, unfortunately due to the Coronavirus, we were unable to take part in any organised march. Many places including Cubert were resplendent with black and white flags. St Piran was the patron saint of tanners. The white on the flag represents the tin coming out of rock. St Piran is credited with discovering tin.

At 9pm Radio Cornwall broadcast the "Trelawney Shout" and you were able to join various choirs to sing "Trelawney" (The song of the Western men)

#### GOOL PIRAN LOWEN (Happy St Piran's Day)

Regarding the Census, I do hope if you're "Cornish" (ideally born in Cornwall of Cornish parents) you marked "Cornish" as your nationality.

The Oratory and Church remains can be seen on Penhale Sands....they are marked on the OS Explorer Map 104 Grid 7656 and 7756 or type in **st pirans church penhale sands OR st pirans cross Penhale sands** into an application such as Google Maps

There are plaques at the Oratory and Church explaining the history

## NEW !! DOG POOP ACTION GROUP

With the increasing concern over the amount of dog mess in Holywell and surrounding villages, this group is to gather ideas to help tackle the issue, a discussion forum, to publish information updates and any photos of recent offences in the area. We boast some of the most beautiful countryside in the UK and I cannot believe that people do not pick up after their dogs and will even put it in a bag and still leave it behind.

Myself, Becky King and Claire Bradder are the administrators overseeing the posts made to this Facebook group.

Link - [Cornwall&community action-poop patrol!](#)

We have already had a brilliant outcome in the group with people wanting to help and coming up with ideas.

PLEASE PICK UP  
AFTER YOUR DOG

## POSTER COMPETITION

(closure date is 31<sup>st</sup> March so this may be too late for the Cubert Newsletter readers of the printed copy)

The first step to taking action is by getting children involved in designing awareness posters with 5 winners picked for distribution around the community. With permission from the council, the winning posters will be put up in the area by ourselves/ The competition is being judged by the extremely talented Eleanor Tomlinson, also known as Danelza Poldark. Not only does she have a huge soft spot for Holywell Bay but she herself is a dog lover and knows the importance of all the responsibilities that come with it.

We as a community can make a difference and work together to look after our beautiful Cornwall and keep everyone safe

## DISGUSTING BEHAVIOUR RE DOG POOP !!!!

This is one of the worst cases I have come across.

A Cubert resident has reported that twice during March, dog poop was found on the door mat outside their front door left by some irresponsible dog owner(s) !!!! The resident then had to clean up, and remember, this was not once but twice !!!! Cameras are now in place and any offenders will be reported to the Council who have been made aware and will deal with any instances reported. **SO – PICK UP AFTER YOUR DOG AND TAKE IT WITH YOU. IF YOU RUN OUT OF BAGS THEN GO HOME AND RETURN WITH A BAG AND CLEAR UP.**

## In Memory of our Hero - Sir Captain Tom Moore

A soldier for life  
A life lived well  
An armour for strife  
Till the day he fell  
He cared with his heart  
His soul and his head  
Folk always followed  
where Sir Captain Tom led  
He fought for his Country  
In war time and peace  
The health team, the lonely  
His legacy will not cease  
Thank you Sir Tom  
For all that you gave  
Your brightness, your caring  
You made us all brave

Rest in peace now  
After one hundred Years  
You have shown us all how  
As we all shed some tears  
For the joy and the love you will stay  
in our heart  
Rest safe dear one, as we reluctantly  
part.  
God Bless a true English Gentleman,  
A Hero, A Soldier & A Knight.  
-Estelle Carne

## COVID TIME

Have you noticed Covid Time?  
Sometimes fast, sometimes slow,  
Sometimes just hanging around,  
Sometimes "where did it go?"

Dear Diary, just checking the day :-  
But I see good news on the way –  
British Summer Time will soon be  
here,  
On 28<sup>th</sup> March we'll go forward,  
that's clear.  
Mornings and evenings will be  
lighter  
Many of us will feel so much  
brighter.

Joy

The last **Golden Eagle** in Wales has been killed by eating rat poison, after twice surviving being shot.

At Penhale headland we now have Exmoor ponies grazing to encourage Choughs to feed there.

At Truro Cathedral the female Raven is now sitting as she did last year.

## GOLDEN EAGLE

Once again I refer to the clever "Corvids". I was watching a nature programme on TV and it showed a Caledonian Crow shaping a stick with a hook on the end, to dig out tasty treats from holes in trees.

A baby crow taken in by Lee Calvert, 46, mimics his dogs by barking at them in Weymouth, Dorset.

**WHEATEAR – Photo by Karen Green**

On the 3<sup>rd</sup> March, Choughs were seen carrying nesting materials into their nesting site locally by Jon Cripps, the CWT warden. On the 14<sup>th</sup> March Tim Hodder observed one Chough making regular visits to the cove and it would appear that the female is sitting. Two other Choughs were nearby.

Also **Wheatears** were in evidence so possibly Swallows can't be far off.

Bob Eardley saw a **Greater Spotted Woodpecker** where he was working locally. On the 20<sup>th</sup> March whilst out walking, Dave and Sharon Smith and Val Eardley saw a beautiful Fire-crested Wren.

How lovely it was on the morning of the 8<sup>th</sup> of March to see all our children returning to school! Everyone is settling back into the school routine once again, and there is plenty of support for those who are not finding it so easy. We have followed Government advice regarding ventilation, hand washing and deep cleaning of all areas. We continue to have staggered drop off and pick up times with each class having designated gates and times to avoid congestion at these busy times. Over the past nine weeks, Cubert School staff have worked extremely hard to provide fun and engaging online learning for all pupils. Every day there have been maths and english lessons, and either art, music or topic activities too. There has been a photography competition, a 'Masked Reader' event, a virtual book fair for World Book Day, and question and answer sessions with scientists.

Thanks to a grant from The British Science Association, each child received, through the post, a pack of equipment and instructions for experiments to do at home during Science Week, and judging by the photos, exploring the elasticity of chocolate was a very popular activity!

We would like to say a big thank you to parents, carers, older brothers and sisters, and everyone for their support with home learning, you've done a great job. Wishing you all a happy and healthy Easter from all at Cubert School.

Lisa Ham

# CRANTOCK WI NEWS

There seems to be some change in the air as I write; not just the spring flowers and finer days, but the hope that the new Government stages out of lockdown will bring us nearer what we used to know as normal.

The monthly members' meeting was held for the first time on Zoom with 17 members being able to join. Most appeared on screen without a hitch and it was heart-warming to see faces we had not seen for a long time. President Janis Ross chaired the meeting and noted we last met face to face a year ago! She informed members of changes to the committee and welcomed new members Janice Deacon, Anne Nickels and Lynne Wilson. The matter of yearly subscription was presented by Treasurer Sue Stevens who proposed that the annual fee should be reduced by £10 to £34 for this year because of the restricted ability to meet and attend events. Until we are able to meet again in the Village Hall, Zoom and small groups outside, when allowed, will be organised.

The Financial Annual Report was presented and adopted. Thanks were given to Josie Grant for her work as Treasurer during this financial year.

Ann Evans presented the Committee's Annual Report covering all the achievements of the previous year. Janis Ross in her address thanked committee members for the work they had done during the year. She also announced that she would be stepping down and a member of the committee would be taking her place.

Liz Anderson, our WI Advisor, was with us on Zoom and was pleased with the contact we had kept with members and the local community through Crantock Makes Poppies, the Facebook page and efforts such as goody bags.

The election results were declared and it was announced that Linda Hallwood had stepped forward to accept the role of President. She expressed the hope for a seamless transition and that she was looking forward to working with the committee and members in the future. Salli Blackford thanked Janis for her inspiring leadership and the committee for their hard work. Janis opened a wonderful card of memories that commemorated her presidency of WI. A gift token and beautiful orchid were also presented. Janis expressed thanks for them. She welcomed Linda Hallwood as president and thanked her for work of the past year on the Operation Hedgehog Project, setting up and managing Facebook and providing press reports. She gave thanks to Sue Stevens for stepping in as Treasurer and supporting member with projects such as the goody bags. Glenis Pratley, who is stepping down, was thanked for her work as Events Secretary. Thanks were also given to Marie Hedge (goody bags), Sonia Jones who is leaving the role as Books Coordinator and Maggie Billings (posies). She added that Sue Fern's provision of excellent cakes and organisation of tea-time events should not be forgotten. Finally, although Salli Blackford is no longer on the committee, Janis said she has remained a wonderful and supportive friend.

I am pleased to announce that Sue Fern is the winner of the year after scoring the most points for her competition entries. Well done Sue! This month's 'Spring' competition winners are:

1<sup>st</sup> Sue Stevens with  
Daffodils in the Window

2<sup>nd</sup> Glenis Pratley with  
Daffodils and Primroses

3<sup>rd</sup> Marie hedge with  
Woodland Spring

Our judge this month, Marianne Inskip, also felt the entries were so good that she awarded highly commended to Salli Blackford for her painting of Spring Flowers. The competition for April will be: Home-made Easter Decoration. This can again be in any form including edible.

Please send entries to Anne Nickels by the 10<sup>th</sup> of April.

**Date for the next members zoom meeting is Tuesday 13<sup>th</sup> April at 2pm.**

Firstly I would like to thank everyone who took part in the “Traffic and Parking review” in March.

For those of you who completed the questionnaire in the Newsletter, your responses have been uploaded and combined with the responses submitted on the website. The analysis of overall returns will be taken forward to the public meeting later in the year as a part of the draft Cubert Neighbourhood Development Plan.

This month, we are looking to develop our understanding of what residents want in respect of “**Protecting our heritage and green spaces**” The initial survey indicated prioritised six areas; the beaches of Holywell and Polly Joke, the setting of Cubert Church and war memorial the public footpath network, the Southwest Coastal Footpath, play areas (suitable for all ages) and woodland within the parish.

As with last month’s and forthcoming months, the questionnaire is available for completion from the document within the Newsletter to be **returned to the Post Office** or via the Cubert NDP website.

<https://community.cubertndp.co.uk/group/heritage-assets-and-green-spaces>.

As ever, I would encourage as many people as possible to utilise the platforms that I’ve mentioned and which are shown below, to express their views.

The results from the environment section of the initial Cubert Neighbourhood Development Plan questionnaire suggested that your highest priorities were: protection of green spaces and rural landscape, protection of hedges and hedgerows, and planting of more trees, together with preserving Holywell and Polly Joke beaches, the setting of Cubert church, and the public footpath network.

The purpose of this questionnaire is to establish how you think we can best protect and enhance the green spaces and heritage assets in our parish. Spending time in green, peaceful areas, reconnecting with nature is widely acknowledged to have considerable health benefits. Knowledge of and access to historical heritage is important for creating a sense of place and belonging within a community. To help us create a plan for the next 10 years, we would like to gather some more information about how you think we could best achieve these goals. The data we collect will be stored securely, and solely used to aid the creation of policies to include in the Cubert Neighbourhood Plan.

Please either use the interactive map found on our website or mark this map with the appropriate symbol to indicate the points around the parish that you most value:

Nature and wildlife 

Historical interest 

Views  

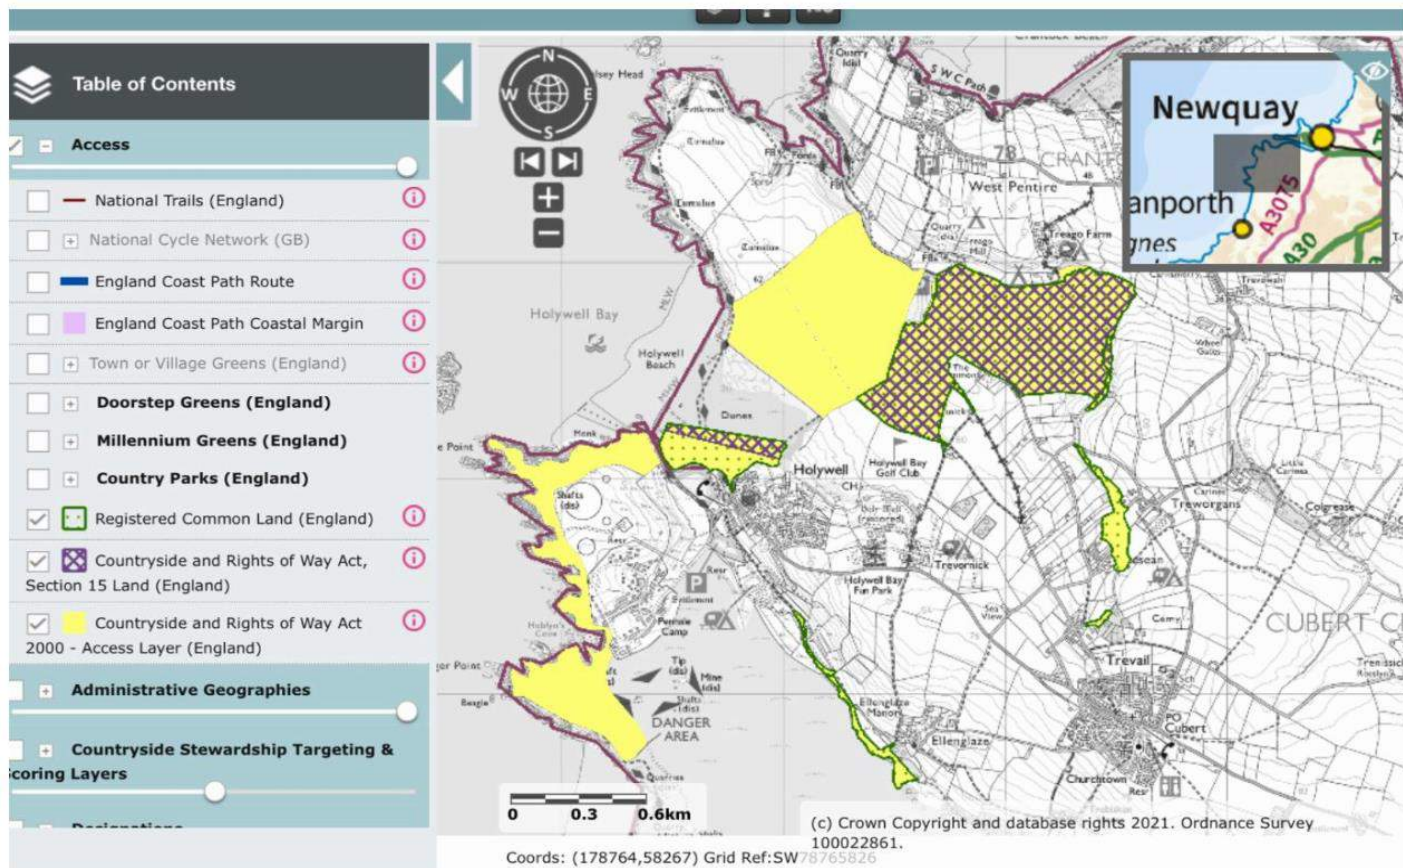

Recreation

Places you feel most at peace or connected to your surroundings 

Can you let us know why you have selected these areas? How do you feel when you are there? How would you describe the experience?

For the statements below please tick the box that most reflects how you feel.

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
Green spaces within and around the parish must be identified, protected and enhanced for the use of wildlife and the community					
Existing Cornish hedges should be conserved to maintain historic field patterns, important wildlife habitats and green corridors					
Settlement boundaries should be defined to provide buffer zones for wildlife and to retain the distinct identities of the separate hamlets within the parish.					
Cubert parish would benefit from the creation of areas of indigenous woodland.					
The church and historical buildings should continue to be protected and preserved to retain the character of the area.					
More areas of land should be given over to wildlife (rewilding, extensifying agriculture)					
Habitats and wildlife areas need to be bigger, better and more joined up to be effective at tackling the wildlife crisis					
The level of development, commercial activity, tourism & provision of local facilities should be controlled to protect existing green space and the rural landscape					

	Strongly agree	Agree	Don't know	Disagree	Strongly disagree
Cubert has a good network of footpaths, and byways making it easy to access open countryside and green spaces					
Cubert has areas of Open Access (right to roam) land and Common land making it easy to access open countryside and green spaces					

Tick any boxes that apply to you

	Daily exercise	Dog walking /horse riding	Nature watching	To access village amenities	To join the South West coast path
Please let us know how you use the local footpath and access land network					

	Daily	Weekly	At weekends	During fine weather	Occasionally
How frequently do you use the footpaths/access land in the parish?					

With increased use these footpaths are subject to higher levels of littering and dog waste. Can you suggest ways in which we could retain the unspoilt character of these routes?

The yellow and green areas on this map show the parts of Cubert parish that are owned and managed by the National Trust. The purple lines mark the parish boundaries.

Holywell sand dunes, Cubert Common and the Kelseys are internationally important natural environments, home to a variety of rare species and widely valued for their unspoilt beauty. Without careful management there is a danger that these areas will become seriously eroded, losing their species diversity and charm.

To protect and preserve these areas for future generations we need to understand patterns of visitor use. The questions below will provide us with vital information, helping to ensure that management plans can be put in place to preserve these valuable environments.

As the USA begins to settle into the new Presidential term, climate change and global warming are being taken seriously again, and with COP26 taking place this year, in Glasgow, it will be good to have America contributing once more to international plans to cut carbon emissions and tackle the widespread effects of climate change on millions of people around the world. An independent team at Climate Action Tracker has suggested the US needs to cut emissions by almost two thirds over the next nine years to help keep the world aligned to the Paris Agreement of keeping global warming to 2degC or less by 2100.

A good news story from America is that New York City's Empire State building is now entirely run by wind energy. The owners of the 120 storey building, as well as thirteen other office buildings have just signed a contract to provide green energy to all their buildings, making them the largest US company to use 100% green energy.

Meanwhile at home, there has been another disappointing delay in making the Environment Bill law in this country. This Bill will introduce legislation to tackle pollution, wildlife protection and waste management, but is now not expected to come into force until the autumn. However, a £10 million fund has been set up to help environmental projects which tackle climate change, restore habitats and improve water quality, in a bid to attract private sector investment in Green projects. South West Water is currently running one such project in conjunction with Cornwall Wildlife Trust, to improve the water quality in catchment areas across Cornwall, working with farmers and land owners to cut fertilizer run off and improve habitats for wildlife on uncultivated land. The Wildlife Trust is also overseeing the re-introduction of Beavers whose great engineering skills can help regulate flooding. There is now evidence that beaver activity in Scotland is increasing, and in the city of Perth on the river Tay, beavers have been seen working right in the centre of the city, providing a fascinating wildlife watching experience to the residents of Perth.

Here are two stories about making the most of what is around you. In Columbia, a company named Woodpecker, has found a way of using the discarded husks of the coffee plant – Columbia being one of the world's leading coffee producers – to make low-cost, lightweight, waterproof, resilient material into panels for the construction of houses. This has the added benefit of avoiding the husks going into landfill sites where they would add to methane emissions.

And finally, in Kenya, where there is an on-going problem of locust infestation, an African company called The Bug Picture is helping communities to harvest the insects and turn them into protein-rich animal feed and organic fertilizer for the land. Warmer seas producing more rain, and increasing cyclones which disperse the swarms, are creating ideal conditions for the locust 'plagues', but The Bug Picture is trying to convince farmers to see the insects as a seasonal crop that can be harvested for an income and bring some hope amid the devastation.

These stories make us aware of human ingenuity and innovation, which is the way we have always responded to problems in our world. Nations working together to tackle global issues is a vital way towards trying to restore the balance of our climate and natural world, and we can all play a part in that process through the choices we make, either in what and how we buy, how and why we travel and how we use our votes.

Working together we can make changes that help protect the future for everyone, One and All.

## CUBERT METHODIST CHURCH

We at Cubert Methodist Church have, like so many other places of worship, been in a state of suspense during these difficult times – sometimes open, then again not! But, subject to the current guidelines we are ready to invite all to join us on Easter Day – April 4<sup>th</sup> at 10.30am when our service will be led by Mick Roberts. There could be no better day to restart worship than on this special occasion!

At this time, we are unable to offer to restart clubs and groups but hope that this may be a possibility in July, once most have had the jab and guidelines have been removed. And so, until we can all meet again safely, we send you love and blessings.

### APRIL SERVICES

All services start at 10.30am and include Sunday School.....
