

The Assembly Rooms, Bath

Tuesday 16 May 1995

Welcome to The Assembly Rooms, Bath and to this year's Regional Conference and Exhibition on Child Health. We hope you will have an enjoyable and informative evening, meeting the exhibitors and spending time with friends and colleagues.

The schedule for the conference is that for the first hour or so you will be able to visit the exhibition stands, discuss products and collect literature and samples.

The lecture will take place after that and following questions, we invite you to stay for supper, a glass of wine and a further look around the exhibition. The conference will end at around 10.00pm when we wish you a safe journey home.

We look forward to welcoming you to other events in the future.

This Evening's Lecture

Positive Parenting - A Realistic Aim for Health Visiting? Responding to the Children's Rights Debate

Robyn Pound
RGN, RHV, BA(Hons)

Robyn Pound has been a Health Visitor since 1974 in London, Bristol and Bath. Her handbook for parents and their health visitors "Help Your Child to Sleep" was pivotal in her interest in the links between children's behaviour and their relationships with their parents. Gaining a Bachelor's degree at the University of the West of England in 1994 allowed her to study many aspects of child health and its relationship to children's rights. She is embarking on research into the changing attitudes of adults towards children.
