Instructions: Follow the map -if you like- and answer the question for as many or few stops as you would like to attempt. You must turn in your answers before 30 October to receive a candy prize. The more correct answers you give, the bigger your bag of candy will be!

Note for participants and parents: Our map and stop order is a suggestion for your convenience only. You can complete as many stops as you like in any order. Our suggested path is over 3 miles long and utilizes foot and bridle paths; wellies strongly advised. Whether you follow our path or your own - all answers should be ascertained from the public pavement with the exception of Stops 3 and 16, as noted in the clues. Please do not ask any of the host stop residents for assistance. Our host stops are making best efforts to keep their decorations visible for the duration of the activity, but weather and other forces can interfere. The "judging" of answers will recognise that, so do not worry if you cannot complete a stop, jot down your attempt and have fun!

Where to go?

A clue for you to solve!
