

WE'RE HERE TO HELP

We're **Home Energy Scotland**, an energy advice service funded by the Scottish Government. We provide free, impartial advice to help people stay warm, make the best use of energy and save money on their bills.

Many people will see their energy costs rise because of the extra time spent at home and if you're worried about this, we're keen to speak to you.

We can help with:

- Clear advice on ways to save energy and reduce fuel costs while staying warm at home
- Practical help if you find yourself without heating or hot water
- Support for households with prepayment meters who are worried about topping up while the coronavirus restrictions are in place
- The latest information about extra help from energy suppliers to make sure you don't get cut off
