

There Is A Mountain

MARGARET ALICIA GAGE-FORRESTER

There is a Mountain we all should climb
Up on top of that mountain is where His glory we'll find
We don't need worry when got Jesus on our side
Just take a look at that mountain and step by step climb.

But there is valley where sin and Satan abide
It's the place where that old serpent, he wants all of us confine
But we don't need to go there as long as we got Jesus on our side
Just take a look at that mountain and step by step climb.

There Is A Mountain

By Margaret Alicia (Cabey) (Farrell) Gage-Forrester

There Is A Mountain

There is a mountain we all should climb,
Up on top of that mountain is where his glory, we'll find,
You don't need to worry, if in Jesus you abide,
Take a look at that mountain and step by step climb.
As long as you have Jesus, he will make things fine,
Just as long as you have Jesus on your side,
You don't need to worry, if you got Jesus on your side.
You don't need to worry if Jesus is your guide,

There is a valley where satan and sin reside,
Down in that valley, where the devil wants all of us confine,
Don't entertain him, make Jesus Christ your guide,
You don't need to worry, you will survive,
As long as you have Jesus on your side,
As long as you have Jesus, it will be fine,
You don't need to worry, you will survive
As long as you have Jesus on your side,

This expression is a spiritual view. Mountain represents a closer walk with God (going up). Valley represents walking further away from God (going down). The opposite of drawing closer to God is drawing closer to the Devil / Satan / the enemy of God and his people. Follow God, plan to go up and not down with Satan.
