

Scheme of H&S Awareness and Training

SCHEME OF H&S AWARENESS AND TRAINING

General

Every BIMS Member must participate in the following awareness or training activity and sessions before using the Shed for practical sessions.

- 1 Read the BIMS H&S Guidance – Workshop Safety Rules.
Secretary will send to new Members on joining.
- 2 Attend a Health and Safety Introduction & Awareness Session including personal protective equipment and introduction to the air filter and dust extraction systems.
- 3 Attend an introduction to operating the following machines – one session:
Scroll Saw; Mortiser; Pillar Drill; Power Sander.
- 4 Attend an introduction to operating each of the following machines before using any of them:
 - i. Table Saw
 - ii. Band Saw
 - iii. Lathe
 - iv. Planer
 - v. Router

First Aid

Most Board and Committee Members will have received First Aid training focussed on Shed activity and any Member can request this training.
