

Oil Paintings by Catia Aurora Benvenuti.

Included in this website are photos of oil paintings by Catia and they have sea and marine subjects that feature in the gallery. As a resident of a hillside village in the Metropolitan area of Genoa on the North coast of the Mediterranean Sea, it is not surprising that she chooses coastal subjects are on the agenda.

As with many parts of Europe, Italy has some wonderful scenery in which artists and photographers can take special interest. As a musician, songwriter and writer myself, I may one day choose such a subject to depict in oil paint.

I thought that a small website for these paintings by Catia would be good for filtering awareness into the general public arena. Therefore, this June 2020, I applied for and opened up Coastal Art. As an administrator, I can say that those artists that I have known have covered a wide range of work topics. One does paints pictures! There was a former class-mate from Junior school days who became an artist, specialising in animation and one of my nieces gained a degree in Art which has led to computer graphics.

I am hoping that people take an interest in the website, the artist and the pictures and the best outcome all round. If Catia receives a request for a painting, then she can be contacted by email or through Social Media, Facebook and Instagram.
