Dear Ms Ross,

A9/A82 Longman Junction Improvement Preferred Option Public Exhibitions

As part of the Scottish Government's commitment within the £315 million Inverness and Highland City-Region Deal, Transport Scotland is progressing plans for a new grade separated junction to replace Longman Roundabout.

Transport Scotland appointed design consultants, Jacobs, in August 2017 to progress the next phases of the design process. The Design Manual for Roads and Bridges (DMRB) Stage 2 assessment has now been completed, identifying a preferred option. As part of the ongoing community engagement two public exhibitions are being held. These events aim to provide members of the public an overview of the outcomes of the options assessment work carried out and to present the preferred option.

We would like to invite you to attend either of the preferred option public exhibitions, details of which are provided below:

Tuesday 25 June 2019 – 12 noon to 7 pm

Inverness Caledonian Thistle Football Stadium, Stadium Road, Inverness, IV1 1FF

Wednesday 26 June 2019 – 12 noon to 7 pm

Inverness Town House, High Street, Inverness, IV1 1JJ

Representatives from Transport Scotland and our consultant, Jacobs, will be in attendance at the public exhibitions to answer any questions surrounding the scheme proposals.

The information panels being displayed at the exhibitions and further details of the proposed scheme will be available on the project website from 12 noon on 25 June 2019 at the following link:

<https://www.transport.gov.scot/projects/a9a82-longman-junction-improvement-scheme/>

We look forward to seeing you if you come along but should you have any queries in the meantime then please contact Heather Kirk on 0141 2434326 or a9a82stakeholdercommunications@jacobs.com.

Yours sincerely,

Colin McCallum
Project Manager
