What and why is 1485 Tri NEWS?

The Tri club has doubled in size over the last couple of years and many members don't engage with the social media pages on FB. With this and loads of things going on we need to find alternative ways to communicate clearly with all our members. One thought was a to try a Monthly News letter placed on the club website and a link sent to club members by E-Mail. Hence—Hello !

Club Kit Window Open.

The tri club does not hold stock of club kit, Our supplier sets up small print runs of our kit as and when we request it, as long as 10 or more items are ordered. Please order at Champion-systems

The club kit consists of gear of different speed performance levels and cut designs at different price points. There are Tri Suits, Cycle, run and other bits. Any further questions see the website, ordering manual or contact Neil Sorrell.

The window closes on Feb 22, so get in quickly. The next window may not be open again for 6 months.

It is very difficult to order the kit on a phone, ipads are better but a PC is best.

There is an unused medium trisuit available that was ordered and doesn't fit, please don't order one and let me know if you want to try it on. We encourage everyone to try the kit before they place an order, there is no way to return it once received and the different styles don't seem to be a very consistent fit. I will be asking for some samples next week, so far I will be asking for a large trisuit and large triathlon speedsuit.

There are a lot of people with kit who may let you try it on so let me know and we can try to sort it out. If you leave it till the last minute there may be no time and you risk the window closing before the samples arrive.

They have changed a lot of the kit and haven't yet produced all the new proofs so the club site looks a little bare at the moment. The link below takes you to a page that explains all the different options you have, its an extensive range so its worth reading up because there is a big price difference from the budget kit to their top end range.

The ordering manual is on our website at <http://www.1485triclub.com/documents/csd-member-order-instruction-manual.pdf>

If you have any questions let me know. Neil Sorrell.
