Dear Sir/Madam,

**SCOTTISH TRUNK ROAD NETWORK MANAGEMENT CONTRACT – NORTH WEST UNIT
UPDATE TO ROCKSLOPE STABILISATION WORKS - A828 LEDAIG ROCKSLOPE**

BEAR Scotland, on behalf of Transport Scotland, is writing to provide a further update on the rockslope stabilisation works at A828 Ledaig and to advise of a change to the working arrangements.

It is proposed that **night-time working will be undertaken between Monday 18 May and Saturday 30 May 2026 between the hours of 21:00 and 06:00**. During safety-critical activities, traffic will be required to stop in both directions for short periods of up to 10 minutes. These operations are essential to allow teams to safely carry out rockslope stabilisation on the route.

The overnight schedule has been carefully planned to take place when traffic flows are lower, helping to reduce disruption. To facilitate this work and ensure the safety of both the workforce and road users, temporary traffic lights will remain in place 24 hours a day for the duration of the works.

These works will also be coordinated with separate night-time resurfacing works at the A828 Connel Bridge, which are due to commence on 18 May for six nights. These resurfacing works will be delivered under a road closure from 22:00 and 06:00, with amnesty periods provided at **00:00, 02:00 and 04:00** each night. Traffic management for both schemes will be coordinated to minimise overall disruption to the Trunk Road network as far as reasonably practicable, and the Ledaig works will be managed to ensure that vehicles are able to access the Connel Bridge amnesty periods.

Emergency access will be maintained at all times throughout the duration of the works.

BEAR Scotland and Transport Scotland would like to thank stakeholders for their continued cooperation and support while these essential safety improvements are delivered on this key route.

For further information or to discuss these works in more detail, please contact the North West Consultation Team at NWConsultation@bearsotland.co.uk.

Yours faithfully,

Calvin Sharp
Roads Engineer, North West Minor Improvements

Enc. Location Plan – A828 Ledaig
