Background

The Scottish Government recognises the importance of Scotland's town centres and local high streets to the economic and social fabric of the nation. In light of this we recently announced a £60 million Town Centre Regeneration Fund available during 2009-10.

Further details on the Fund and an application pack will be announced on 30 April 2009, with applicants being able to submit applications from this date.

Information Seminars

Due to the high level of interest around the fund, three information seminars have been arranged through the [Town Centres and Local High Streets learning network](#).

Laura McIvor - the Scottish Government's Policy Lead on the fund - will attend each seminar to provide an overview and to answer any questions you have.

The information seminars are aimed at those who are considering making an application to the fund and will also provide an opportunity to find out more about the Town Centres and Local High Streets learning network and how it can help you.

The information seminars are provided free of charge and places are limited, therefore if you are interested in attending, please email [Yvonne Gavan](#) indicating which event you would like to attend.

Members of the Town Centres and Local High Streets learning network are the first to hear about all events and activities being offered. If you are interested in becoming a member, please contact Yvonne Gavan on 0141 271 3734 or at yvonne.gavan@scotland.gsi.gov.uk
