Contestants comments:

Dean St. Hill 8P6SH

The first day went well with rates approaching 60 QSO's per minute, but the tactical error of resting when I should have been on 40 & 80 may have cost many QSO's and multipliers, especially because the bands were terrible on Sunday.

Goetz DJ3IW

Saturday provided some nice DX on 20m and 15m and even a few contacts on 10m. Sunday however was a different story. According to a German source F2 critical frequencies were down by almost 2 MHz and so was the propagation. As seen from my QTH, 15m was almost useless. Also not many new stations were workable on the second day. Two hours with fairly good rates on 40m gave a useful compensation.

Gerd HK0GU (DL7VOG)

I thought I would reach the 1000 QSOs mark this time, but failed due to bad condx the second day (rather no EU/AS) - but it was the best result I ever had in any RTTY contest. Sometimes it was hard to bear: endless CQs for 5 or more minutes without reply - but I am not dissatisfied at all. I don't think that my result is good enough for the top ten list NA but this isn't so very much important to me. The letters I received since then tell me, that I was a "NEW ONE" for many guys and that is what counts.

Jack G4EMT

Thanks for the contest, good conditions on Saturday, but poor on Sunday, so only a part time effort, cancelled going to the Blackpool rally on Sunday, mistake, hi, gale force winds blew all the fences down, but all the antennas stayed intact, proves I am a better at ham radio than DIY'ing, hi.

Ian G3SEK

My first BARTG... decided on SO40 because 40m is the band on which my vertical is least un-competitive. Normally I would extend the basic guyed pole for better performance, but the gales on the contest weekend made this impossible - I had to use it "fully reefed", and still didn't dare look outside!

Paul HB9AVK

Thank you for the management of the legendary BARTG Spring Contest. After many years I started again to spend some points around on RTTY contests.. but also to test new macros and my longwire antenna (85m). Happy to see some stations again after >20 years.

Jan SM5FUG

Fair condx on Saturday, but I was not able to spend too much time at the radio the first day. Sunday propagation was a disaster and closed totally at noon. I did not hear a single station on ten during Sunday, and managed only to make five QSOs on 15 after noon. 40 and 80 m worked better, 5 continents worked on 80, the one I missed was North America, I stayed in bed too long in the mornings. Highlights was to be called by VK6HD and PS7TKS on 80m. VK6HD has an tremendous signal here in my very noise city location.

Contest Manager's Comments:

Another good contest despite the worsening band conditions. Scores were slightly down on last year but once again we had a superb entry with just over 500 logs received. Many stations lost points through errors in callsign logging; it pays to take a bit more care in verifying callsigns and reports when the bands are weak and noisy. It was good to see some G stations well up in the results, with Roger G3LDI in the top ten single operators and Ian G3SEK winning the 40 metre class at his first attempt. My congratulations go to all our winners and a big thank you to all who took part. See you in 2005.

John Barber GW4SKA

BARTG Contest Manager
