

Simon, Alison, Christine, John and Stacey all scored 10/10 for their efforts for their outfits.

There was much fun and frolics had from creepy crawly cupcakes, thirst quenching juice from the cauldron and some of us even tried dooking for apples. This was a little harder than it looks but luckily we were offered to different ways to catch our apples!! Some of us though, went head first into the basin of water to get our goodies!!!

Like every year, no sooner had we got over Halloween, and then bonfire night was upon us!! Those of us that attend the Falcon Project went down to the main Bonfire area and drummed until it was time to watch the fireworks..... Many of us chose to stay indoors but we had a great view.....

The fireworks were very lovely to watch and made us ooh and ahhh a lot.

November also saw Richard celebrate his birthday which saw him get his new music system which he has been proudly demonstrating his dj-ing skills on at the social club along with his other musical skills.
