

Wilma Campbell

I have lived in Hurworth village for 30 years and since retiring from full time teaching in 2013, I have contributed to our village community by involving myself in three voluntary groups.

As a Parish Councillor I liaised with DBC on issues concerning our Public Footpaths and Open Spaces and attended the Green Spaces Conference in March. I helped to organise and lead the HPC Summer walks ensuring our Rights of Way remain open and maintained.

As Chair of EPICH I have lead and supported environmental initiatives to improve the flora and fauna of your local community. Recently completed projects include the construction of a bird feeding station, the planting of thousands of spring bulbs around the village and providing a free children's Nature Trail activity at the Grange, during the Easter holidays. Our next project is the planting of a wildflower meadow.

I am also on the HCA Management committee.

Vice Chairperson (H.P.C.).

Representative for the Environment and Open Spaces.

Member of Vetting Committee.

My hobbies include beekeeping, playing golf, gardening, travelling and enjoying the occasional glass of wine!
