ENERGY EFFICIENCY

We are constantly working on optimizing our energy efficiency at our sites and production.

RENEWABLE ENERGIES

We use renewable energies at our sites and production.

SUSTAINABLE SUPPLY CHAIN

We strive for suppliers with a low CO₂ footprint, environmental friendliness and respect for human rights.

SUSTAINABLE PRODUCTS

We strive for products with a low CO₂ footprint through the use of low-CO₂ raw materials, as well as product design that lasts longer.

COMPENSATION OF UNAVOIDABLE CO₂ EMISSIONS

We invest in certified climate protection projects for climate neutrality (e.g. hydropower in Turkey).
