

## **MEDIA STATEMENT**

**26 June 2020**

### **Statement by Minister Mmamoloko Kubayi-Ngubane – COVID-19 alert level 3 risk adjusted strategy tourism sector response measures and direction**

In line with President's announcement last week, we are continuing with the effort to reactivate the Tourism sector so that we can save businesses and Jobs in the sector. Working together with the sector, we have developed protocols and guidelines to ensure that as we reopen more tourism activities we protect the lives of employers, employees, tourists and South Africans at large.

Since the first of June when we opened, some of the subsectors with the commencement of level 3, we have seen businesses starting to contribute to increased economic activities and more and more South Africans whose livelihoods depends on this sector, going back to work. During this period, I have been encouraged by the manner in which the sector has adhered to protocols and guidelines in their operations. I personally visited accommodation establishments and restaurants to see for myself how they were handling the new normal and I experienced firsthand that the sector has embraced the new mode of operation.

Following further discussions with industry representatives on stringent prevention protocols and guidelines for the Tourism subsectors, Minister Nkosazana Dlamini-Zuma has issued regulations that form the basis of the directions we are announcing today.

The amended regulations and directions cover economic activities under the current level 3 of the Risk Adjusted Strategy.

We therefore welcome the decision by NCCC and Cabinet to permit tourism services to reopen for the categories as stated in the amended Regulations.

## **1. DIRECTIONS FOR RESTAURANT, FAST FOOD OUTLETS AND COFFEE SHOPS**

1.1 All restaurants, fast food outlets and coffee shops must comply with the following Directions:

### **Records to be kept**

1.1.1. Keep a daily record of all employees, delivery agents and patrons

### **Screening, Sanitising and Personal Protective Equipment**

1.1.2

(a) screen each employee and delivery person; on arrival for shifts and on departing after shifts, regularly sanitise the workplace, delivery transport, containers, and follow cleaning procedures; provide employees with masks to wear and hand sanitiser; and ensure that every employee wears the relevant Personal Protective Equipment. Ensure that delivery persons sanitize before and after handling card or cash payment.

## **1.2 Social Distancing, Sanitisation**

Must in respect of employees and delivery persons ensure that -

- (a) employees and delivery persons (where applicable), maintain a distance of at least one and a half meters apart at all times;
- (b) employees occupy scullery areas, and use hand wash basins, one at a time;
- (c) employees that work in clearly defined spaces stay in their space as far as possible;
- (d) employees move about using clear pathways with care and attention not to come in close contact with one another; and

(e) where contact between employees takes place, employees must wash hands and go back to safe-spacing as quickly as possible.

### **1.3 Collections**

1.3.1. Demarcate an area for the collection of orders for delivery that is separate from the place where food is prepared; and

1.3.2. Designated contactless pick up zone for customers whose orders are ready to be collected.

### **1.4. Deliveries**

1.4.1 When taking an order from a customer inform customers to -

- (h) handling of orders and delivery to customers.

6.2 Employer must inform employees, delivery persons on the responsibility to advise the employer if they are tested positive for Covid-19 or have been in contact with someone who is Covid-19 positive.

We take this moment to appreciate the role played by various leaders of the sector, specifically captains of industry, leadership of TBCSA together with various small businesses in townships, rural communities, the Women in Tourism and other individuals who have reached out to make submissions as we move to rebuild our sector.

I would like to also take this moment to appreciate the patience during this time to appeal for patience as we work on further reopening more subsectors. Whilst we are working on the re-opening of the sector one should not lose focus on the health risk of the pandemic, particularly as the rate of those infected has exceeded the 100 000 mark and we are yet to reach out peak. It has become even more important to adhere to all safe protocols.
