Qantm College is one of Australia’s most successful and innovative creative digital media educators. From its establishment in 1996, Qantm College has become Australia’s leading private provider of education to the creative digital media industries.

Qantm College educates students across the specialised disciplines of games programming, animation, games design, interactive digital media and graphic design.

Qantm College maintains a strong involvement with key industry players, ensuring synergy between college and industry, as well as guaranteeing mutually beneficial outcomes for the student, college and the creative digital media marketplace.

This involvement provides a sound platform from which to educate students and ensure the relevancy of the teaching outcomes, course content and technical infrastructure.

Qantm College provides a supportive teaching environment combined with state-of-the-art resources. This ensures the success of our graduates who are highly sought after.

Qantm offers a range of qualification levels with bachelor degrees, diplomas and certificate programs in face to face and flexible teaching environments.

Not only has Qantm College won Best Small Training Provider of the Year in 2001, 2003 and 2006 but the students themselves have picked up the Best Unsigned Game award at Games Connect Asia Pacific in 2004, 2006, 2007 and 2008.

Qantm was established in 1996 in Australia, backed by several key universities, government departments and arts bodies. It quickly became the country’s leading new media college.

By carefully crafting important links with key organisations, Qantm has set the benchmark in the design of courses to meet the specific needs of the industry. Qantm now offers university-style practical qualifications in animation, games programming, graphic design, web media and games design.

We look forward to welcoming you to Qantm College – where creativity is a lifestyle, ideas are encouraged and innovation is vital.

Qantm provides hands-on training by experienced professionals using state-of-the-art equipment and industry standard practices. Students have the opportunity to complete real world projects during their training, and many students gain work experience before they graduate through our internship programs. In addition to regular lectures, students gain unique insights with frequent ‘lunchbox lectures’ where key industry members present lectures designed to keep students in touch with current developments.

Qantm College has received various private institution training awards
- Qantm/SAE has a network of over 50 campuses world-wide
- Qantm guarantees individual hands-on practical time
- Qantm has a unique, practical way of teaching
- Qantm offers recognised, accredited degree and diploma qualifications internationally
- Qantm offers accelerated learning programs: earn your degree in just 2-years
- Qantm has an impressive track record with highly successful graduates
- Qantm guest lecturers are leading industry professionals
- Qantm students can relocate to any of our campuses world-wide
- Qantm limits enrolments to guarantee individual equipment access
- Qantm maintains an international job placement/internship program
- Qantm has an active alumni association to further help our graduates
- Qantm/SAE International Graduate College provides post-graduate courses
- Qantm graduates have been nominated for and have received many international awards
why choose qantm?

At Qantm, we understand it’s not all about the theory – students are given practical projects, insider knowledge, tips and advice from visiting industry experts.

Our certificate, diploma, bachelor and masters programs offer both internationally recognised qualifications and all the advantages of practical experience.

What makes Qantm the best choice for your digital media career?

Specialised practical lectures – This is something very few other programs offer, only Qantm gives you the individual practical time you need to grasp the ever increasing skill set required to work with and understand countless technologies and software.

A balance of practical & theory – You’ll benefit from a tried and tested combination of formal theory lectures, practical workshops, guest lecturers and creative projects.

Accelerated learning – Qantm offers an accelerated learning program in the form of a three-year bachelor degree completed in just two years, or a one-year diploma. You’ll learn quickly, graduate and join the industry sooner.

Flexible structure – The course structure allows students to combine fundamental modules with advanced electives that deal with specific areas of specialisation.

At Qantm students are given the opportunity to study without borders: the studies you complete at one Qantm campus can be credited towards further study at any other campus.

Qantm courses are your first step towards a rewarding career in the digital media industry!

your way through qantm

All Qantm Colleges have fully equipped teaching facilities, animation and multimedia computer workstations and other practical work areas. Qantm facilities are owned by the college and are for the exclusive use of our students. The digital world moves at a rapid pace, and our resources and courses are updated regularly.

We ensure students have access to the environment they need to achieve their best and to reach their full potential.

We challenge students in ways that bring out their best; some challenges they will enjoy and accomplish with ease; others will build mental and emotional strengths that are essential elements in the growth process and invaluable for future career success.

At Qantm, we support, motivate and encourage our students.

Our programs are designed to prepare you for a professional and rewarding career

The field of animation has grown dramatically and diversified over the last decade. Animation is one of the chief tools of communication and entertainment in the new century. It is evident that animation is no longer restricted to the film, television, games and entertainment industries. Digital animation is now being used by the defence force for advanced training, simulation and security planning; the advancement of science in the area of medical diagnosis; product development and design; and architectural visualisation.

Computer animation is used extensively – both in the games industry, which has a high demand for animators and also in the film and television industries. Film studios are animating fight sequences that are too expensive to film with real actors, online games are being used for marketing and advertising as well as entertainment and students are learning via computer simulation using extensive animation.

Australia now hosts a number of international animation festivals, to showcase the diversity of styles relating to the techniques and subject matter involved in this quickly evolving industry. There has never been a better time to choose animation as your profession.

Qantm College has forged powerful links with Australian and world-wide games and animation companies, ensuring our programs are the most up-to-date and relevant available.

Animation tools are becoming more sophisticated and mastering them takes time and discipline, but at Qantm the process is made easier with our expert instruction. We will prepare you with the skills you need to enter this rewarding and exciting career field.

**YOUR CAREER PATHWAYS**

**Bachelor of Interactive Entertainment majoring in Animation**

**Duration:** 2-years full-time (3 trimesters per year).

This course is designed not only to prepare graduates to undertake creative and production roles within the 2D and 3D animation and games industries but provides the skills for career progression into operational, development and managerial positions.

Students will undertake specialised courses in 3D modelling, texturing, lighting and animation for games; animation and special effects for film and television; script writing and animation for virtual environments.

The degree program focuses on the specific areas critical to developing knowledge and skills in animation for interactive entertainment.

**Diploma of Screen and Media (Animation)**

**Duration:** 1-year full-time (3 trimesters per year). Online study option available.

The Diploma of Screen and Media (Animation) is designed to provide students with job-ready skills in 3D animation principles and practice, including screenwriting, storyboarding, modelling and animating 3D characters and environments.

Students have access to industry-standard software and hardware, experienced instructors who are experts in their fields, and a learning environment that has earned and retained powerful links with Australia’s leading games and animation companies.

A strong focus throughout the program is on the development of a comprehensive showreel, which is essential in gaining employment on course completion. Graduates of the course may also receive advanced standing into the Bachelor of Interactive Entertainment (majoring in Animation) if they choose to pursue further education in this field.

**Areas of Study:**

- Drawing from Live Action Reference
- Storyboarding
- 2D Animation
- 3D Modelling & Animation
- Texturing and Lighting
- Design and Editing Video
- Animation for Games
- Special Effects for Screen

Certificate III in Media (specialising in animation) also available.
Behind the flashy visuals and slick programming of today’s games lies the design work of the ‘visionaries’. Shigeru Miyamoto, Hideo Kojima and John Carmack have created some of the best known, and highest selling games of all time. Not only did games like Metal Gear Solid, Mario Bros. and Doom enthral gamers through flashy visual presentation, it was their core design elements which have lead to their long-lasting success.

Responsible for the effective implementation of a myriad of diverse game assets, the designers’ role is to draw from their body of knowledge to create a product that fulfils the end user’s needs. To prepare students for this challenge, Qantm provides a wealth of experience not only within theoretical areas but also in the real world, through Qantm’s established industry links.

Effective design is a culmination of many factors, yet those who excel in this field are well versed in all aspects of the game production process. In an industry reliant on sequels and established franchises, Qantm strives to train designers ready to step outside the mould, to create effective games for a diverse marketplace. Games developers and publishers alike are beginning to see the need for talented designers. Qantm’s industry expertise provides the training needed to step into these roles, and forge a new breed of industry leading visionaries.

Bachelor of Interactive Entertainment majoring in Games Design

Duration: 2-years full-time (3 trimesters per year).

Students will undertake a specialised course developed with the help of local industry which focuses on all aspects of the game design process. Students will compliment design theory with extensive practical work in the areas of art, scripting, testing, prototyping and serious game development to name but a few.

Areas of Study:
- Level Design
- Testing
- Mechanical Design
- Sound Design
- Documentation
- Authorship
- Prototyping
- Narrative and Character Development
- Scripting
- Asset Development

As an industry leader in cutting edge new media and games training, Qantm is once again at the forefront in offering practical qualifications in games design
The study of games is divided into three areas of specialisation – programming, animation and design. Programming involves software development while animation and design focus on the artistic and strategic side of games development.

Games programmers are the architects of games titles. They write the code that forms the building blocks of the game, governing the complex interactions between characters and environments. The Bachelor of Interactive Entertainment has been developed to satisfy the increasing demand for graduates who have the experience and skills to focus on the specialist needs of the interactive entertainment industry.

In addition to technical skills in programming, students undertaking this major at Qantm College will gain a deeper appreciation for the history and potential of games as an entertainment and communications medium, and will also focus on the design, production, marketing and sociocultural impacts of interactive entertainment.

Qantm College has strong alliances with some of Australia’s and the world’s leading games companies including THQ, Pandemic, Krome and Halfbrick.

Games programming requires a keen, problem-solving and mathematically inclined mind. It is a rewarding, well paid and challenging career.

**Areas of Study:**
- Games Theory
- 3D Animation
- C++ Programming
- Creation of a Games Proposal
- Game Title Construction
- Game Title Development
- Project Management

**YOUR CAREER PATHWAYS**

**Bachelor of Interactive Entertainment majoring in Games Programming**

**Duration:** 2-years full-time (3 trimesters per year).

Learn C++ programming, work with mathematical functions and artificial intelligence to design and program games for a variety of devices.

This program is designed to prepare graduates to undertake operational, development and managerial roles within the interactive entertainment industries. Students opting for major studies in games programming will undertake specialised courses including character development, script writing, games design and agent systems.

This degree program focuses on specific areas that are critical to developing knowledge and skills in games programming for interactive entertainment.

The local games industry is growing at a rate of 15% per annum and made a considerable contribution to the Australian economy in 2008.

The study of games is divided into three areas of specialisation – programming, animation and design. Programming involves software development while animation and design focus on the artistic and strategic side of games development.
The name VIBRANT is inspired by Sydney's lifestyle with its energetic atmosphere, contemporary architecture, beautiful beaches, and trendy people. My wine label design is aimed to have a simple, minimalist yet sophisticated look that represents Sydney's attitude, hence the choice of modern san serif typeface. A unique typography treatment is used on the V and A of the wine logo/name VIBRANT to convey the idea of wine that originates from Sydney Australia, in a smart, fun and modern way. The V represents a wine glass, while A is a moving boomerang, which is uniquely Australian, with a tiny Australian map shape as its crossbar. The colour scheme of both wines is kept simple with black as a starting point for the logo type. A splash of extra colours are then added for the letters V and A of each wine label to emphasize the unique typography treatment. The Chardonnay uses shades of golden brown while the Shiraz uses shades of red. The wine label itself is separated into two parts. The top part contains the bold logo type as the main eye-catching point, while the bottom part is kept subtle. The label is to be printed on off-white coated stock with a matte finish, possibly Spicer's Saxon, to achieve a contemporary yet uncomplicated look that is the attitude of Sydney.
The need for skilled graduates with a strong grasp of industry standard programs is essential. Business realises the necessity of using both digital and print media for successful promotion.

Graphic design is a combination of creative visual design and technology to create dynamic web and print communication solutions.

The Qantm College graphic design programs are unique because they focus on the design and creation of graphics for both the print and digital media/web environments. As with all Qantm programs it’s not all about the theory – students are given practical projects, insider knowledge, tips and advice from visiting industry experts. The graphic design program offers both an internationally recognised qualification and all the advantages of practical work experience.

What makes Qantm the best choice for your graphic design course?

Specialised practical lectures – This is something very few other programs offer! Qantm gives you the individual practical time you need to grasp the ever increasing skill set required to work with and understand countless technologies and software.

Cutting-edge equipment and software – Because we are a global organisation our students benefit from our vast equipment purchasing power, always providing our students with access to the latest computer equipment and software.

Accelerated learning – You’ll learn quickly, graduate and join the industry sooner.

This program covers – Use of industry standard design software, pre-press and printing, image manipulation, desktop publishing, magazine and commercial design, working with colour, portfolio development, advertising, basic web design, interaction design, project management and more.

YOUR CAREER PATHWAYS

Bachelor of Creative Media majoring in Graphic Design

Duration: 2-years full-time (3 trimesters per year).

Students undertaking this program will be working in a studio based environment where they will apply their knowledge and skills in the design and development of a range of graphic design projects.

Using industry standard software applications, students will explore print and screen based media and will learn creative and flexible design skills for further development or employment.

A distinct focus on encouraging visual exploration and enhancing visual literacy is maintained throughout the program.

The program covers design communication, typography, page layout, computer illustration, reprographics, cartooning, image manipulation, web design and 2D animation. The main objective of this program is to create a high level of design competency in print and screen based software. Students will also gain technical knowledge in pre-press and print. Various design projects will be delivered throughout the graphic design program, each will contribute to an electronic or print based portfolio of work.

Areas of Study:

Design Theory

Typography

Web Design and Development

Image Manipulation

Technical Illustration

Pre-press & Production

Advertising Design

Layout Design

Interactive media encompasses new, richer, more immersive forms of communication and involves the combination of digital media elements including video, sound, graphics, Internet and animation. Contemporary information technology and the Internet utilise a broad range of applications and devices to create, store, exchange and use information in various forms. Elements of multimedia can be seen in anything from business databases, to mobile content, e-commerce, games, touch screen directories, DVD menus or interactive training products.

With recognition of the value of digital marketing and information delivery through interactive media products such as websites and interactive presentations, comes the demand for skilled professionals in this field. Qantm College’s creative digital media programs are unique and innovative with an emphasis on aligning students’ knowledge and skills with current industry demands. Qantm College has established processes for continual improvement of programs through frequent evaluation and constant industry feedback.

Throughout the Qantm College interactive digital media programs, students learn industry standard development tools, including the essential contemporary programming languages of the web. Graduates are well versed in the latest in industry best-practice, making them highly sought after by employers.

Flexible structure – the program structure allows students to combine the fundamental modules with advanced options that covers all areas of web design and development.

**YOUR CAREER PATHWAYS**

**Bachelor of Creative Media majoring in Interactive Media**

**Duration:** 2-years full-time (3 trimesters per year).

Students undertaking this program of study will focus on the creation of a range of web based and stand alone applications.

The program develops students’ skills in a variety of interactive media platforms including the creation of interactive content for the web, mobile phones and DVD.

Key features of the program are the principles of web development, including the design and development of web sites; the interactive design and development of sophisticated multimedia applications with integrated digital graphics, audio, video and animated sequences, database applications and eCommerce.

Choosing interactive media development as a specialisation will prepare students for employment in a broad range of careers associated with the design, development, implementation and testing of resources for business, government, health and education.

**Diploma of Interactive Digital Media**

**Duration:** 1-year full-time (3 trimesters per year).

Online study option available. The Diploma of Interactive Digital Media is an intensive ‘hands-on’ program where students gain a range of skills and knowledge including animation, graphic, web and games design allowing them to meet the challenges of the increasingly complex world of digital media.

The course has a dual focus of ensuring students possess practical, job-ready skills in line with industry demands and an extensive portfolio of work produced during their studies to demonstrate these skills to potential employers.

Graduates of the course may also receive advanced standing for the Bachelor of Creative Media if they choose to pursue further education in interactive digital media design and production.

**Certificate III in Media**

The Certificate III in Media (specialising in animation or interactive digital media) is available through online study. Please contact Qantm College to find out more.

**Areas of Study:**

- Web Design
- Graphic Design
- Digital Audio
- Digital Video
- Multimedia Theory
- Communication Skills
- eCommerce
- Project Management
- Content Management
- Applications
- Advertising/Marketing
- Animation & Visual Effects
- Games Design

**AWARD WINNING PRACICAL EDUCATION AND A RECOGNISED BACHELOR DEGREE IN JUST 2-YEARS**
With the continuing advancement of the digital media industry, there is an ever growing need for leaders with the appropriate skills and experience in the digital media and games industries. This program is designed to fulfill that need by developing the leadership skills, knowledge and practices of those individuals, well grounded in their industries, with the ambition to advance themselves and the industry.

Small, medium and large companies within the digital media and games industries are now seeking solutions to their current and emerging needs to develop different forms of leaders within their enterprises. Clearly, employers are searching for an industry oriented program that offers a pathway to the development of leaders at different levels within organisations.

The concept of leadership and team building that the digital media and games world is searching for is situated directly in the different types of organisations and cultures that constitute this rapidly changing commercial environment.

By focusing on the development of leadership and team building directly in specific digital media and games organisations, exact applications of this leadership can be practiced and evaluated. This allows for relevant leadership challenges to be addressed in the context of the digital media and games environment as opposed to the broader IT or business environments. It is also beneficial to situate the learning for this program directly in the industry so that viable solutions can be applied to real issues and these can be fed directly back into the industry with minimum time loss.

Qantm leads with Australia’s first fully accredited masters degrees in Games and Digital Media Leadership

**Expanding our post-graduate options**

The exclusive partnership between Middlesex University (MU) and our International Graduate College (IGC) features and capitalises on the strengths and the outstanding reputation of both institutions: MU for its renowned academic excellence and its initiatives in Work Based Learning (for which it has been awarded a Queen’s Anniversary Prize); and SAE/Qantm for its state-of-the-art technology, facilities and industry credibility.

Degrees from this highly respected university will provide a strong basis for continuing your professional development through post-graduate studies including masters and doctorate degrees.

The IGC provides a flexible learning environment for post-graduate degrees. All Qantm courses have advanced standing within the IGC.

www.saegraduatecollege.com

The International Graduate College programs are delivered in a flexible online environment and provide continued professional development and research specific to the creative media industries.
“As part of the world’s largest network of media institutes, Qantm will continue to set the standard for games, animation, design and media education”
Qantm Online provides students with flexible study opportunities in their area of interest.

Studying online allows students to work from any location worldwide, at the times that suit them best. It is ideal for students who have full-time work commitments or those who want more control over when and where they study. Students are provided with professional guidance and support from Qantm Online instructors and support staff, who will assist them to successfully achieve their study goals. This includes prompt and extensive feedback, a timetable, study guidelines and regular e-mail communication. Interactive content and video tutorials are available to students via the Qantm Online website. These quality learning materials have been developed by industry professionals using the latest technologies and processes.

Qantm Online courses can provide excellent articulation into higher level qualifications, including direct entry into the Qantm degree programs and subject credits towards the Creative Media and Interactive Entertainment Qantm degree programs (subject to eligibility). Earn nationally accredited qualifications in Digital Media and Animation in the comfort of your own home or office, at a time that suits you best.

How does it work?

Students study from their own home, office or workplace, using their own computer, software and Internet access. The unit materials are available on the Qantm Online website and communication with instructors is provided via e-mail and phone. Students learn by completing interactive exercises and assessments for each unit. The completed assessments are then uploaded to our servers for marking and feedback. Qantm instructors will assist students throughout the entire course by responding promptly to queries and the provision of comprehensive feedback for assessments submitted.

For those students who live near our city locations, or for regional students who plan to visit the city, access to supervised Qantm College labs is available for an additional fee. This enables online students access to Qantm College computers and software at specified times and by arrangement only, giving students a chance to extend their learning experience or obtain additional help from our team of professional instructors and lab tutors.

What can I study online?*

Courses that can be studied via Qantm Online include:

- Certificate III in Media
- Diploma of Screen and Media (Animation)
- Diploma of Interactive Digital Media
- Short courses in Web Design, Animation and 2D Graphics
- Customised courses for industry, corporate and the education sector

*Course content and offerings are constantly updated to reflect market demands and industry trends, and as such are subject to change without notice. Please see www.qantm.com.au for up-to-date availability.

Once enrolled in one of our Qantm Online courses, students are provided with a comprehensive range of interactive learning materials www.qantmonline.com.au
Passionate about games, animation or digital media? Get a head start in the industry of your choice by enrolling in Qantm VET in Schools program – Certificate III in Media

If you are in year 10 or above and are passionate about entering the games, animation and/or digital media industry then enrol in the Certificate III in Media with Qantm College.

The Certificate course is a two year part-time program and can be completed online in your own time or during school hours.* The course is designed to offer you a wide range of industry skills and a head start to your desired career in the creative industries. Upon completion you will receive a nationally recognised qualification, fundamental industry skills and possible credit points toward your senior certificate.*

Qantm Online courses are designed to give you hands-on training in a fun and practical way. You will learn from online presentations, comprehensive video tutorials developed by industry experts, and will be challenged with assessments based on real-life projects.

Our industry-experienced instructors will assist you throughout the course and provide easy to understand feedback in guiding you towards the successful completion of your study.

Certificate III in Media
The Certificate III in Media offers two streams of specialisation – Screen & Media and Interactive Digital Media.

Screen & Media takes you through the different stages of animation production. You will learn how to create 3D models, the basics of sound and video editing, as well as the creation of 2D and 3D animation.

Interactive Digital Media covers a wider range of skills including, graphic design/image manipulation, 2D animation, interactive content management as well as visual and audio editing.

Available at Brisbane only, please contact the college or visit our website for more information.

Study with Qantm for a Day!
“Study with Qantm for a Day” is a fun and exciting event open to anyone over the age of 15. This highly popular event gives you the opportunity to experience a full day of hands-on training in your chosen field of digital media with Qantm’s industry-experienced instructors. In addition you get to check out the college, have all your questions answered and get a taste for what it’s like to study at Qantm.

Contact the college or visit our website for more information.

*A GREAT OPPORTUNITY FOR YOU TO EXPERIENCE A FULL DAY OF HANDS-ON TRAINING IN YOUR CHOSEN FIELD, WITH INDUSTRY-EXPERIENCED INSTRUCTORS.

(*Please consult your school’s VET coordinator/Guidance officer)
Career options

There are many jobs and careers you can choose after completing a Qantm program.

A short list of examples:

Game level and environment designer, game programmer for graphics – special effects – shaders – engine/tools, game designer, game developer, 3D asset creator, research and development manager, multimedia developer, interactive designer and manager, Maya operator, character modeler, objects modeler, animator film or television, materials/lighting technical director, medical, automotive or architectural visualization supervisor and designer, advertising designer, graphic designer, web games author, multimedia developer and designer, interactive media designer, media project manager, web designer and programmer – HTML, CSS, JavaScript, XML, AJAX, Flash, PHP, MySQL, Action Script, web developer, interactive designer, design agency operator, and more.

Qantm Alumni Association

Qantm College and SAE Institute have an active alumni association which provides many benefits to our graduates. Alumni can search and find other alumni or just look for special offers from various manufacturers. If someone is looking for a job, the Qantm/SAE Alumni Association has an online job terminal. Our alumni are offered seminars on up-to-date topics and receive our industry alumni magazine. Many leading companies offer our students equipment deals, extended warranties and entry to special events.

ACADEMIC PARTNERS AND APPROVALS
HOW TO APPLY FOR QANTM COLLEGE PROGRAMS

On the web
The most up-to-date and detailed information on how to apply for any Qantm course at any location can be found on our website or by contacting the campus.

www.qantm.com.au

Full-time
Admission to diploma and degree programs offered by Qantm College is based on educational achievement and/or experience and personal achievements. Qantm College takes into consideration applicants’ talents and abilities. Qantm College does not simply focus on high school scores.

Qantm College offers a range of enrolment options including direct application, online application and through some state tertiary admissions centres. To discuss the career and enrolment options that best suit your needs, contact us for a personal consultation.

Year 12 students
To discuss your future career in the digital media industry and enrolment options, please contact us to have a representative explain the Qantm College career pathways. You can also find course information online at www.qantm.com.au and in tertiary admissions handbooks for most states, these are given to Year 12 students by their schools.

Mature age students*
Mature age students are welcome. Please contact us to discuss individual study requirements and to find the program that best suits your career objectives and your lifestyle. Completion of Year 12 or equivalent is not an entry requirement for mature age students.

A large number of students at Qantm College do not come directly from senior studies at school. Employment, previous study and personal achievements are important aspects of life experience that can assist in making you a successful applicant to Qantm College.

*To be eligible for mature age entry in Queensland and New South Wales applicants must be over 18 years of age at time of application. For mature age entry in Victoria applicants must be over 21 years of age.

Recognition of prior learning or advanced standing
Qantm College recognises that you may have studied or have industry or life experience in certain fields and do not wish to undertake unnecessary study. Recognition of prior learning will be granted where possible. A Qantm College academic staff member will assess your submission and you may be granted credit for some units or courses.

Scholarships
Qantm College may offer various scholarships for students either entering tertiary education for the first time as well as for students that are performing highly in the programs.

For further information contact us or visit our website.

Newstart Allowance Ph: 13 28 50
Abstudy Ph: 13 23 17

Qantm College payment options
Qantm College understands your need for flexibility when it comes to financing your future, so we have designed a number of options to assist making your choice of payment easier. International students have the option of up front payment with a discount on their tuition fees, instalments to Qantm College over the duration of their program or a deferred student loan through the National Australia Bank. Eligible domestic students also have access to deferred payment arrangements through the Australian Government Higher Education Loan Programme (FEE-HELP).
INTERNATIONAL STUDENTS AT QANTM COLLEGE

During your first week, Qantm College will hold a comprehensive orientation program to introduce you to your new surroundings in readiness for studying at Qantm College. Almost all international students wishing to study in Australia will need to apply for a student Visa. For information on this process and Australia’s immigration requirements, please see: www.immi.gov.au/students/index.htm.

Detailed information on studying in Australia can be found on www.studyinaustralia.gov.au and we strongly recommend that prospective international students visit this site first.

Applicants can also obtain assistance with their application by emailing the campus. See page 29 for Australian campus email addresses.

A requirement of all student visa holders is that they must maintain health cover for the duration of their study in Australia. Qantm College student administration will assist students to obtain health cover.

It is also recommended that students obtain accident and travel insurance prior to leaving their home country.

International students may be eligible to work while they are studying. This is governed by the laws of the Department of Immigration and Citizenship. (www.immi.gov.au).

Qantm College does not provide student accommodation. However, the College has contacts who can assist students in finding accommodation.

These include:
Prices for accommodation vary according to your requirements. Please contact your relevant campus prior to leaving your home country if you require assistance.
Do you accept international students?
Yes. In fact many of our students are international, which is great for giving a world-wide perspective on discussions in class and on wider platforms and subjects.

Can I work alongside the course?
Due to the accelerated nature of the course, we would not recommend a full-time job. Part-time or flexible employment may be suitable depending on your personal circumstances.

Can I study at another Qantm college?
Yes. Some of our past students have commenced the course at one of our locations and moved to another location or another country during the course. This will give you a unique experience no other college can offer. Please note that tuition fees may vary between locations.

Do you assist graduates in finding jobs?
Yes, through the Qantm/SAE Alumni Association. Graduates have the opportunity to join the association upon successful completion of the program. The Qantm/SAE Alumni Association provides a networking platform for graduated students, this is a very helpful medium for our students.

What association does Qantm have with the SAE Institute?
Qantm College is part of the SAE Group of companies. SAE Institute is an international organisation that specialises in creative technology education with an emphasis on high quality practical application. There are over 50 SAE institutes around the world offering qualifications in audio engineering, digital film making and electronic music production.

Should I do a full-time or part-time course?
Making this decision can be based on a number of factors. Studying full-time is ideally suited for those who are not committed to full-time work. International students must enrol in a full-time course in order to be awarded an Australian study visa. Modular learning is great for those already working as it means you are able to study on a part-time basis and choose the modules you want to learn.

Is there any financial assistance available for students studying on a Qantm course?
Qantm College understands your need for flexibility when it comes to financing your future, so we have designed a number of options to assist making your choice of payment easier. International students have the option of up front payment with a discount on their course fees, installments to Qantm College over the duration of their program or a deferred student loan through the National Australia Bank. Eligible domestic students also have access to deferred payment arrangements through the Australian Government Higher Education Loan Programme (FEE-HELP).

Does Qantm have any accommodation facilities specifically for students?
No. We tend to find that students like to share houses or flats, which works out to be the best value for money. Further information on living in Australia can be found at www.studyinaustralia.gov.au.

Who awards the degree?
Degree programs at Qantm are taught, administered and awarded by Qantm under the Australian Qualifications Framework. See www.deewr.gov.au for details on Qantm’s registration and accreditation.
OUR HISTORY

Qantm College was established by leading universities and various government agencies to provide the highest quality creative media education.

Qantm was one the first colleges in the world to develop a dedicated practical games degree. Qantm was founded in 1996 in Australia, backed by several key universities, various government departments and arts bodies. It quickly became the country’s leading new media college with a number of locations in Australia, and has since expanded to Europe and Asia.

By carefully crafting important links with key companies, Qantm College has set a benchmark in the ability to design courses to meet the needs of the relevant industries.

By carefully crafting important links with key companies, Qantm College has set a benchmark in the ability to design courses to meet the needs of the relevant industries. Qantm programs always include hands-on training by experienced professionals using state-of-the-art equipment and industry standard practices. Our programs are developed around industry trends.

Those students who complete a Qantm program become very competitive in both the local and international design, business and technology environments. Qantm colleges have won several national and international education awards and our graduates are highly sought after by the industry.

Qantm College was acquired by SAE Institute in 2004. Bringing with it an unrivalled excellence in the field of technology education, with more than 50 colleges around the globe, SAE has become a dominant force in the fields of audio and film education.

The combined expertise of SAE and Qantm looks set to revolutionise the teaching of game programming, web design, graphic design and 3D animation around the globe.

Thanks to our very successful graduates, Qantm College has had an unprecedented growth over the past few years, expanding both its program offer and locations.

OUR MISSION

“As part of the world’s largest network of media institutes, Qantm will continue to set the standard for games, animation, film, audio and media education. We are involved in an ongoing process of updating our world-wide campuses with state-of-the-art equipment, engaging only the best educators and refining our curriculum, to reflect the latest technologies, information and teaching principles. We will maintain our focus capitalising on its existing, internationally recognised quality profile whilst tailoring and enhancing our courses and associations, with the objective of maximising the opportunity for a professional career outcome for all our graduates.

Our teaching aim has always been to provide solid theoretical lectures in conjunction with practical experience using our extensive range of equipment. ‘We will continue to strive for educational excellence through our partnerships with leading universities world-wide.’

AUSTRALIAN CAMPUSES

BRISBANE CAMPUS

Location
Qantm College Brisbane is located in the heart of Brisbane’s CBD, the most desirable address in Australia’s most livable city. Students have access to all city services as well as the extensive range of eateries and shopping facilities.

Address
138 Albert Street, Brisbane QLD 4000
PO Box 15477, City East QLD 4002

Transport
Qantm College is located within five minutes of the Brisbane bus terminus and ten minutes from the city train service.

Building
Student Administration is located on level 10 of Qantm House, with classrooms located on levels 9 and 12.

Description
Brisbane is one of Australia’s most liveable cities, home to the majority of Australia’s games studios and the birthplace of Qantm College. Once a sleepy regional centre, Brisbane is now a youthful, dynamic and multicultural city conveniently located for the entire Asia-Pacific region. Brisbane is currently the fastest growing city in Australia and provides a huge variety of cultural, retail, recreation, tourism, accommodation and dining options, many catering specifically for students. The world famous beaches of Byron Bay, the Gold Coast and the Sunshine Coast are all located within a short bus or train trip; and the Great Barrier Reef, Daintree Rainforest and metropolitan Sydney are just a short flight away. International students find Brisbane to be the definitive Australian living experience and many eventually choose to make the city their home.

MELBOURNE CAMPUS

Location
Qantm College Melbourne is located in West Melbourne close to Flagstaff Gardens and 10 minutes walk from Melbourne’s CBD.

Address
17 Jeffcott Street, West Melbourne VIC 3003

Transport
Public transport is easily accessible to the college. Flagstaff railway station is the closest railway station and is just five minutes walk through Flagstaff Gardens. Trams, also an option, alight at Stop 2 Melbourne City (King Street/Latrobe Street), or take the bus to Melbourne Remand Centre/Spencer Street.
For a customized journey planner see: www.metlinkmelbourne.com.au

Description
Take a walk down any of Melbourne’s tree lined boulevards and you will instantly appreciate this European styled city that is unarguably the cultural hub of Australia. Melbourne is famed for its architecture, galleries, vibrant music and arts scene. With café and entertainment districts stretching into every corner of the city, Melbourne also has the distinction of being home to a large proportion of Australia’s burgeoning games development industry.

SYDNEY CAMPUS

Location
Qantm College Sydney is located in Wentworth Avenue, directly across the road from SAE Institute. It lies in Surry Hills, a hip café district that is home to numerous galleries and design studios, a suburb which is regarded as the design capital of Sydney. It is a five minute walk from Chinatown with its hundreds of restaurants and ten minutes to Darling Harbour and Circular Quay.

Address
74–78 Wentworth Avenue, Surry Hills NSW 2010

Transport
The college is walking distance from Central Station, it is also walking distance for all inner city bus stops.

Description
Sydney is internationally renowned as one of the world’s most beautiful and liveable and safest cities. The city which is centred around a magnificent harbour, crowned by the Sydney Opera House and Harbour Bridge, is cosmopolitan. It showcases fabulous modern architecture alongside historic Georgian sandstone buildings, offers world class shopping, theatres, bars, acclaimed multi-cultural cuisine for any budget, and an exciting night life. All this and numerous beautiful, clean, surf beaches including the famous Bondi Beach within a 15 minute drive of the city centre make Sydney a highly desirable destination.

The weather in Sydney is temperate with summer temperatures ranging from 25–35°C and mild winter days averaging 15–22°C.

Sydney is Australia’s capital for design, multimedia, animation and film industries.
