OVERVIEW

CERTIFICATE SHORT COURSES

BASIC RECORDING TECHNIQUES

Course Description
The Basic Recording Techniques Course is a hands-on introduction to sound fundamentals and the audio equipment and technology required to achieve successful audio production.

The various production stages are presented and dealt with in detail and the student is taught proper techniques required to achieve quality sound production content.

Who should take this course?
The course is intended for audio and music hobbyists and enthusiasts who are interested in the music recording and production process.

You would benefit from this course if:
- you are passionate about music
- you make music and want to learn how to record and produce it well
- you want to enhance your music with proper post production techniques
- you want an edge on your existing production techniques
