### 2D Animation (Beginner)

**Course Description**
The unique 2D Animation certificate course provides an opportunity for amateur animation enthusiasts to unleash their passion for 2D Animation. The programme encourages individualism and brings student's creativity to next level. Students will learn the practical knowledge and software skills necessary for 2D character animation.

The course covers the whole workflow of character animation, from conceptual to final production. It fosters a sharp understanding of character movement, and introduces the correct tools to give your animated creations soul, attitude and solid performance. Special topics include learning how to give character weight, balance, pose, line of action and timing.

The course equips students with the necessary nuts and bolts in the art of animation that provide the framework required to work as a professional animator.

Who should take this course?
We highly recommend this certificate course for creative people who have great passion for drawing and character design and yet lack of the knowledge to bring your character to life.

**You would benefit from this course if:**
- You want to learn how to create professional 2D character design
- You already have skills in that field but you want to work more efficiently
- You want to develop your visual “eye”
- You are passionate about visual design
- You intend to study further in this area.
