DIGITAL FILM

OVERVIEW

CERTIFICATE SHORT COURSES

DIGITAL FILM PRODUCTION

Course Description

The emphasis of this course is on the creative and practical side of video pre-production and production. The course covers the basic knowledge required to prepare a video project for the final post-production stage. Everything is introduced including basic scripting, storyboarding, digital camera operation, lighting and sound.

The course is ‘hands-on’ and practical in its approach with students being exposed to a range of industry standard equipments. SAE Institute has invested in the latest professional technology to give our students the edge in this competitive market.

Who should take this course?

The course is intended for everybody who wants to get basic skills in film making, such as basic camera handling and lighting.

You would benefit from this course if:

* You want to learn how to script, direct and shoot your own video.
* You want an edge on your existing production techniques.
* You are passionate about video production.
* You want an industry accredited qualification.
* You intend to study further in this area.

• Mature age over 17 years
• Familiar with basic computer operations
• Proficiency in English Language

Contents

Basic Video formats, working with cameras, lenses and filters, location shots, understanding the video workflow, basic and advanced lighting techniques, understanding time codes, basic screen writing and audio.

Software Used

Nil

DIGITAL FILM POST PRODUCTION

Course Description

This course aims to instill a basic working knowledge of the stages and technologies involved in a digital film project with particular emphasis on the editing process. It examines workflow, project management and interpersonal skills needed to edit footage for a variety of delivery platforms. Non linear editing techniques and approaches are demonstrated and discussed, considering these from both a technical and an aesthetic perspective. Effective communication of narrative is analysed considering the affect selected editing techniques may have on an audience. DVD authoring and other compilation processes for a variety of media are examined.

The course serves as a hands-on introduction to the fundamentals of Editing with Final Cut Pro and aims to provide students with advanced and continuative operations of the Final Cut Pro HD system.

Who should take this course?

This course is intended for everybody who wants to learn about video post production.

For students who have completed our digital film production short course this is a chance for you to understand the complete workflow of digital film project.

You would benefit from this course if:

* You want to learn how to edit your raw footage into a logical story
* You want a complete overview of the whole digital film project.
* You are passionate about video production.
* You want an industry accredited qualification.
* You intend to study further in this area.
