

PRESS RELEASE

Differdange, 20 July 2016

Luxair offers the flibco service to its clients for a guaranteed price of 5 €

flibco.com and Luxair have concluded a cooperation agreement that guarantee the clients of the Luxemburgish airline to benefit from a 5€ fare by using the lines flibco.com departing from Belgium, France and Germany to go to the airport of Luxembourg from some stops.

The Luxemburgish company Luxair Luxembourg Airlines bets on the quality of its services to assure a high-class experience to its clients. Therefore, they have become partners with the Luxemburgish company flibco.com, specialized in the transport to the airports, to offer their clients a transfer to the airport with the biggest comfort of the shuttles of flibco.com and this, for the unbeatable price of 5€!

Concretely, Luxair has signed an agreement with flibco.com that guarantee the clients having a reservation number to benefit from a 5€ fare to go to the airport of Luxembourg on board of the shuttles of flibco.com starting from serials stops in France, Belgium and Germany.

A similar agreement has united flibco.com and LuxairTours since 2015 assuring this way a service to a little price for the clients of the tour operator. Today, flibco.com enlarges this agreement with the airline Luxair and the product Metropolis.

This agreement allows Luxair to align an additional advantage for their clients coming from the Greater Region (until Namur). The concerned stops are the followings: Namur, Marche-en-Famenne, Bastogne, Arlon, Trèves, Thionville, Metz and Nancy. To make a reservation, the clients just need to go on the website flibco.com, equipped with their Luxair reservation number, and profit from the reduced fare of 5 €.

Paul De Muynck, General Director at flibco.com, highlights the advantages of this shared operation: *“flibco.com has been collaborating with LuxairTours since 2015, transporting the clients of the tour operator to the Findel at a reduced fare. We have enlarged our agreement to the clients of Luxair and of the Metropolis product, multiplying the advantages for our company as well as for the Luxemburgish group which extends so their catchment area. The Luxair clients begin their trip in the biggest comfort of our coaches and avoid the stress of the road!”*

This new service builds up a key element of the mobility-strategy of Luxair and an important argument to convince the Belgian, French and German travelers to choose the Luxembourgish company. They deal with easiness, comfort and proximity. Luxair is willing to be a qualitative actor in the Greater Region.

flibco.com offers up to 12 departures per day from and to the airport of Luxembourg. The shuttles flibco.com drop off the passengers a few meters from the entrance of the terminal. The shuttles-schedules are adapted to the flight times so that the best possible service can be offered.
