

CONTENTS

| | PAGE |
|---|------|
| I—PRELIMINARY; Physiography, Drainage, the Taita Hills, Communications .. | 1 |
| II—OUTLINE OF GEOLOGY; Sequence and Stratigraphic Table, Age, Structure; Distribution of Basement System Sediments in Kenya | 3 |
| III—THE ORTHO-GNEISSES AND THEIR ASSOCIATION WITH HORNBLLENDE-SCHISTS | 7 |
| IV—THE PARA-GNEISSES— | |
| (1) General | 9 |
| (2) Para-Gneisses Associated with Mzima Argillaceous Schists. Right Bank of River Tsavo | 10 |
| (3) Para-Gneisses occurring in the Central Part of the Tsavo Traverse .. | 11 |
| (4) The Maktau Hills | 12 |
| (5) Graphitic Gneisses, Athi River | 12 |
| V—THE PARA-SCHISTS AND ASSOCIATED ROCKS— | |
| (1) The Mzima Bend Section | 13 |
| (2) Petrography of the Rocks of the Mzima Bend and the Loosoiito Range | 13 |
| (a) The Quartzites | 13 |
| (b) Kyanite-quartz Schists | 15 |
| (c) Kyanite-graphite Schists | 15 |
| (d) Rocks of doubtful origin, akin to hornfels | 16 |
| (3) The Volcanic Sub-Group | 17 |
| (4) The Schist Series near Mgange, north-west of the Taita Hills .. | 18 |
| (a) Quartzites | 18 |
| (b) Graphite-Kyanite-Schists | 19 |
| (c) Compact Graphitic Rocks with Garnet | 19 |
| (d) Actinolite Schists | 20 |
| (5) The Crystalline Limestones | 21 |
| VI—COMPOSITE GNEISSES OF THE TAITA HILLS | 21 |
| VII—SUMMARY OF GEOLOGICAL CONCLUSIONS | 23 |
| VIII—ECONOMIC MINERALS | 23 |
| IX—REFERENCES | 24 |

APPENDICES

| | |
|--|----|
| I—Graphite Deposits, Tsavo | 24 |
| II—Kyanite Deposits, Murka | 29 |
| III—Magnesite Deposits, Kinyiki | 31 |
| IV—Other Mineral Deposits at Kinyiki—Asbestos, Quartz, Felspar, Vermiculite, Corundum and Sapphire, Miscellaneous Minerals | 32 |
| V—Mica | 37 |
| VI—Miscellaneous Minerals—Limestone, Clays, Rose Quartz, Copper, Kaolin, Minerals of the Taita Hill | 38 |

ADDENDUM

| | |
|---|----|
| Mineral Production Figures subsequent to the Report | 40 |
