

## Product Data Sheet

### P7301, P7303, P7305 Indicator Door Bolt

#### Fitting

1. Drill door for spindle.
2. Offer indicator spindle to drilled hole & cut down length if required, ensuring to leave enough to leave enough exposed spindle to go into the bolt housing.
3. Unclip nylon chassis from indicator housing and screw to door, central to spindle hole.
4. Clip indicator housing back on, ensuring indicator "VACANT" sign is visible in the indicator housing window.
5. Ensure bolt housing knob is fully slotted in the open position (the nylon cog at the rear of the bolt housing will now be in a diamond position). Screw bolt to door - **do not over tighten**.
6. Screw keeper to door jamb.
