Billions of records of personal information are exposed in data breaches every year. With the help of F-Secure ID PROTECTION, hackers can’t use your stolen online data to take over your accounts and commit identity theft.
ID PROTECTION combines human intelligence and 24/7 Dark Web monitoring to find your personal information within data breaches.

Store and access your passwords securely from any device. Be informed of weak and reused passwords and generate strong ones.

Receive expert guidance on what to do when your personal information is leaked in a data breach.

Identity theft assistance
