

Three Year Cashflow (Flat) Report

Description

This report is intended to reproduce the same information seen in the Cashflow Manager.

Unlike the hierarchical version, this report outputs all cashflow data at the most detailed level possible, and is not grouped. This means it is easy to take the information and use it in Excel for pivoting, for example.

The information is presented over the current financial year plus two years ahead.

Includes information from:

Project Cashflow  Appraisal Workflow People Property

Uses the following attributes:

Project	Cashflow	People	Property
---------	----------	--------	----------
