SILENT TECHNOLOGY

Eliminating the vibrations, you can enjoy a great cup of coffee in a noiseless ambiance.

MAXIMUM PRECISION

The micrometric regulation system makes the MDH more ductile with greater precision.

PERFORMANCE AND POWER

With its 900-watt engine, the MDH assures a uniform and powerful grinding. The 50 mm flat burrs in steel alloy increase performance guaranteeing a constant ratio.

MICROMETRIC REGULATION

This function adjusts the coffee grain size with maximum precision.
