

Covid19 Precautions and Procedures

Dear Parents/carers,

I just wanted to inform and reassure you with regards to Covid19 and the measures that will be taken during our visit to Frank Chapman.

- Annie Lennard staff will be taking a lateral flow test the day before our visit is scheduled.
- We will be following Frank Chapman's Covid19 guidelines.
- We will not be mixing with any other groups and we will keep to our 'Annie Lennard' bubble. During our visit, equipment will remain in our bubble and if shared will be thoroughly cleaned.
- If a child from our group comes down with Covid19 symptoms, there is an isolation space for them and we will contact you to come and collect them (this procedure is exactly the same as we do in school). If you do not drive, a member of staff from school will come and collect them in PPE.
- If a number of children come down with symptoms, Frank Chapman staff and myself will make the decision as to whether the trip needs to be postponed for the safety of everyone.

If you have any questions, please do not hesitate to contact me.

Mrs Williams
