

Nursery Class

March 2022

News and Reminders

Spring? Is that you? I am sure you are just as excited to see some sunnier weather on the way; please may it continue! We look forward to an exciting term ahead filled with all of the joys of Spring and maybe an egg hunt or two!

Parents meetings - the online portal will now be open for you to book, please let me know if there are any problems with the dates as my door is open for a catch up at any time of year!

Belongings basket - we have so many hats, scarves and gloves scattered through the cloak area this time of year that we have started a basket for the children to pop them in. It will be outside each day if you are missing any belongings please take a look!

Home Learning

Nursery home learning:

Our topic this term is 'The Great Outdoors', the children have already begun to tell us of trips to garden centres, parks and more outside activities. We invite you to pop any pictures on Tapestry that will open up conversation around this topic. Maybe the children are helping to tidy up the garden or have spotted new growth on a plant?

Thank you so much to those who have already shared some half term activities!

Book borrowing - the blue box outside class is for you to be treated as a nursery library, please feel free to help yourself and return when you are finished. Reading with your child really is the best home learning you can do!

Our Learning

Our topic this half term is 'The Great Outdoors', each week we will be learning about the outside world, we started with the theme of weather, the children conducted an experiment to see if we can create rain in a bag and learned about condensation, we check our window to see if the sun has created a rain cloud! Our role play has been transformed to a garden centre where the children have the opportunity to talk about things they might see on sale or use in the garden. Last week World Book day saw some of the older school children come for a visit to read with the nursery children, it was such a lovely experience and

one we hope to make a more frequent occurrence. This week we have been learning about hibernating animals the children have discussed who hibernates and why, they then created an environment for one of the animals discussed in group learning. Our theme next week is all about plants, which ties very nicely into science week where the focus is growth, we will be finding out what plants need to grow by choosing different environments to grow cress seeds. The supporting story is Rapunzel, we will replenish our rather tired herb garden together ready for some sunny weather potion making and think about what else grows, any ideas Rapunzel?

Superstar Learners

Eden-Bly has received a certificate for **Respect**.
Jack I has received a certificate for **Responsibility**.
Ryder has received a certificate for **Co-operation**.

Diary Dates

18th March - Comic Relief - please see school letter.
28th March - Parents meetings 1pm-4pm.
