

Online Safety

Click Clever. Click Safe.

Internet safety guidelines.

Keeping happy and safe

The internet is amazing when used safely
and correctly.

Here are some simple rules that will help you make sure it
stays amazing so that it plays a healthy part of your life.

TEAM

- Talk about staying safe online
- Explore their online world together
- Agree rules about what's okay and what's not
- Manage your family's settings and controls

Social Networks

Did you know that it is illegal to have a Facebook account
if you are under 13?
If your parents set it up, then chn are required to be
under adult supervision when using it.

Social Networks

- Never share personal information with anyone online. This includes name, address, phone number and any school information. *Get privacy settings right!*
- Remember that anyone can be anybody online. An internet friend that you may think you have known for ages is still a complete stranger in real life.
- Use a nickname instead of your real name and put up an avatar of yourself on your profile rather than a real one.
- Keep your passwords safe by changing it regularly. It will be much more difficult to guess if you do.

Blocking Wisely

- Block and delete any emails from anyone you don't know.
- Do not open any attachments from people you don't know as it could be a nasty virus!
- If anyone sends you a nasty email or messages, just block them. Arguing will not help, and you do not have to put up with it!
- This applies to all devices that use the internet e.g. Games consoles (such as xBox or PS4) and tablets (such as iPads).

Cyber Bullying

- Cyber bullying is no different to bullying in real life.
- If someone says something that upsets children, they need to tell someone they trust about it, such as a teacher or parent and block the bully.
- Remember that typing something nasty in a message to someone is just as upsetting as saying it to their face.

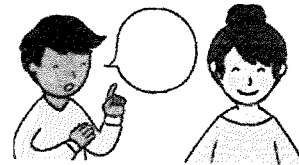

Don't meet anyone

**REPORT...
BUT DON'T
DELETE,
REPLY
OR MEET**

Meeting People Offline

- Children should never meet anyone from the internet without an adult with them!
- Talk to a trusted adult about it.

The main thing to remember is:
Be smart and safe by making the right choices.
If you are ever unsure,
ASK for help and advice.
Do not deal with it alone!
