

# Tuesday Talk

At Sacred Heart we place great emphasis on encouraging our children to become confident, rational thinkers. We believe it is important that the children develop skills whereby they:

**Listen attentively to others who are speaking and respect the opinions of others**

**Speak clearly enough for others to hear**

**Ask questions to check understanding**

**Build upon what others say whilst giving reasons for their answers**

Therefore, each **Tuesday** we will send home a 'big question' and we would like you to have a family discussion about the question posed. We will then discuss this as a class on a **Friday** afternoon. This does not need to be recorded in any way, however if the children wish they can note ideas on post its or in the form of a mind-map.

We feel that this is a valuable experience for our children at Sacred Heart and we thank you for your continued support as always.
